Stainless Steel Food Waste Disposer

Stainless Steel Food Waste Disposer is a new way to handle food waste in modern homes: leftovers, meat spurs, vegetables, melon husks, eggshells, tea leaves, coffee grounds, small corn cobs, poultry Small bones, etc., to prevent food waste from breeding germs, mosquitoes, cockroaches, reduce kitchen odor, thereby effectively promoting family health, optimizing the home environment, and solving the problem of sewers easily blocked.

After Stainless Steel Food Waste Disposer, the accumulation of grease in the sewers will be significantly improved, the use of garbage bags will be significantly reduced, and the health of consumers will be more secure because of the cleaner kitchen environment.

Product parameters:

Model	SS-8375AG
Product Application	Home Use
Input Power	375W
Horsepower	1/2 HP
Voltage	110V/220V
Current	2.25A
Frequency	50/60Hz
Rated Rotary Speed	2800/3200RPM
Motor	Permanent Magnetic DC motor
Grinding Capacity	700ML
Grinding System material	Stainless steel 304#
Safety protection	Overcurrent & overload protection
optional sink connector	140mm,160mm,180mm
Sound-proof system	Double hollow structure
ON/OFF	Air Swith
Number of users	2-3 People
Warranty	2 years
standard life	8-10 years
Weight	3.70KG

In fact, through the extensive use of Stainless Steel Food Waste Disposer, there are even more benefits: it can significantly purify the home environment and the public environment; it can effectively alleviate the pressure of a large amount of food waste to reduce the urban waste disposal station; the treatment from the food waste disposer It will not significantly increase the treatment capacity of the sewage treatment plant. All of these make the popular application of Stainless Steel Food Waste Disposer a necessity for development and an improvement of the times.

The kitchen is ground to foam
Refuse clogging of sewer

Locking hose
Waterproof bed bug

Prevent bacterial growth
