Food Waste Disposal Machine

Our advantage:

One: special alloy hammer crushing technology, the crushing disc on the food waste disposer on the ordinary trash can uses the alloy hammer head, crushing the hammer, cutting, tearing and grinding four actions, the garbage can be according to the strength, Automatically adjust the working position. In addition to hard objects such as metal, stone, ceramics, glass, etc., non-kitchen garbage can also be disposed of.

Two: Grinding wheel, the grinding wheel adds two reinforcing ribs and one reinforcing belt, which improves the wear resistance of the grinding disc, and the unique function smashing, so that all the scraps have special grinding fineness, the user never worry about the pipeline blockage! After the two kinds of automatic garbage are roughly ground and finely ground through the filter hole, they are separated into fine waste mud flowing into the liquid inflow pipe, and the coarse waste will stop being crushed on the crushing plate to form a powder, and have a water inlet pipe. A job is more than ten seconds.

Third, low noise crushing discs. Alloy balance point, stable balance of performance, low motor noise and strong anti-vibration ability.

Fourth, set the motor overload protection overload protection system, there is a foreign object stuck, the protection system will start to stop the power supply, do not burn the motor, if the motor is in a protective state, you need to remove the hard object to fall off the garbage processor, and then press the front reset button It can be fast and convenient!

Fifth, the food waste disposer uses an air switch. Anti-leakage and improve safety performance.

Product parameters:

Model	SS-8375BG
Application	Home Use
Input Power	375W
Horsepower	1/2 HP
Voltage	110V/220V
Current	2.25A
Frequency	50/60Hz
Rated Rotary Speed	2800/3200RPM
Motor	Permanent Magnetic DC motor
Grinding Capacity	850ML
Grinding System material	Stainless steel 304#
Safety protection	Overcurrent & overload protection
optional sink connector	140mm, 160mm, 180mm
Sound-proof system	Double hollow structure
ON/OFF	Air Swith
Number of users	3-5 People

Warranty	2 years
standard life	8-10 years
Weight	4.0KG
Size	380mm(H) x 180mm(W)

Precautions:

Please use cold water throughout the journey

Avoid hot oil pouring directly to protect the kitchen sewer

Encourage mixing grinding

Frequently ground citrus fruit peels to keep fresh water pipes

Regularly grind a small amount of hard material, such as small bones, husks and ice, to flush the grinding chamber

SAFER AND MORE SECURE

BLADELESS GRINDING, SAFE AND SECURE

01

DEDICATED TO PROTECTING FAMILY SAFETY
COMFORTABLE KITCHEN LIFE

EXCELLENT ONE-PIECE MOLDING PROCESS

02

UNIQUE SHOCK ABSORPTION AND NOISE REDUCTION DESIGN
THE COIN DOES NOT FALL WHEN IT IS IN OPERATION

03

AIR SWITCH FOR EASY AND SAFE OPERATION

INSTALLATION DIAGRAM

BEFORE BUYING A GARBAGE PROCESSOR

36% FOCUS ON THE
CRUSHING EFFECT

15% FOCUS ON
SECURITY

12% FOCUS ON
NOISE SIZE

90% USER AFTER USE
PIPELINE BLOCKAGE IS THE KEY ISSUE
