### Kitchen Waste Processor

Kitchen waste processor: Also known as the Kitchen food garbage processor, it is installed in the drain of the kitchen sink of the home kitchen, which can easily crush the food waste and other food wastes such as the vegetable head and leftovers. After grinding into fine particles, the water flows out of the pipeline.

parameter

Model	SS-8375DW
Application	Home Use
Input Power	375W
Horsepower	1/2 HP
Voltage	110V/220V
Current	2.25A
Frequency	50/60Hz
Rated Rotary Speed	2800/3200RPM
Motor	Permanent Magnetic DC motor
Grinding Capacity	1000ML
Grinding System material	Stainless steel
Safety protection	Overcurrent & overload protection
optional sink connector	140mm,160mm,180mm
Sound-proof system	Double hollow structure
ON/OFF	Air Swith
Number of users	5-7 People
Warranty	2 years
standard life	8-10 years
Weight	4.4KG
Size	385mm(H) x 218mm(W)

Features:

Kitchen waste processor can effectively waste all kinds of food in the kitchen, such as: small pig bones, chicken bones, fish bones, egg shells, melon skin, fruit core, tea leaves, vegetable root leaves, coffee grounds, leftovers, leftovers 糞, bread crumbs, etc., pulverized into a paste-like liquid, naturally discharged through the pipe with water, thereby achieving a clean environment, eliminating odor and other effects. It can reduce kitchen odor, reduce pest harassment and promote family health.

In fact, through the widespread use of food waste disposers, there are even more advantages: it can significantly purify the home environment and the public environment; it can effectively alleviate the pressure of large amount of food waste to reduce the urban waste disposal station; the treatment from the food waste disposer does not Will significantly increase the treatment capacity of the sewage treatment plant. All of these make the popularization and application of food waste disposer a necessity for development and an improvement of the times.
