

## Open Water Swim Buoy Bag

### Use and use scenarios of swimming buoys

Swimming buoy is one of the important safety equipments for outdoor swimming. When in use, it should be tied to your waist to make the buoy come out of the water. The swim buoy is enough to hold a person's weight in the water. Non-swimmers are not allowed to use.

### When swimming in the following circumstances, you can use the swimming buoy as a buffer:

1. Weakness in swimming
2. Leg cramps in swimming
3. Choking water during swimming
4. Swimming too far from shore
5. When swimming, you need to supplement food or water.

The swimming buoy can be seized and pressed into the water for a rest with buoyancy. When the discomfort is eliminated and the physical strength is restored, then swimming can be continued.

### Product parameters

Material	Nylon with PVC coating
Size	28L (36*72cm)
Printing	Silk printing or digital printing
Feature	Eco-Friendly, fully waterproof
Function	Swim-run, open water swim, surfing and all water sports
Sample time	7 working days
Package	Each one packed with one PE bag, several packed into one strong carton
