· Practical & Versatile - Besides a high-frequency welded construction, this 30L dry sack waterproof backpack features an elasticated front webbing and mesh netting pockets on both sides for extra storage, a reinforced one-handed strap to give your shoulders a well-deserved break, chest & waist straps securing the bag and limiting side movements, breathable shoulder strap allowing for more ventilation, padded back to prevent back strain, all to maximize your comfort.

· Favorite among campers who use them to keep food out of the reach of hungry scavengers. Particularly attractive to those who love surfing or snorkeling but don't love what these activities can do to their expensive electronics or change of clothes.

Notes:

- 1.The bag isn't designed to be fully submerged for long or at great depth.
2. Don't compress all of the air out of the bag when rolling the top up to seal it because the air inside the bag. works in conjunction with the rolls and latch to create the seal that keeps water out.
3. Please test before you use the waterproof dry bag, prevent it from leaking.

FAQ

1.Are you a trading company or manufacturer?

---We are industry and trade integration,our factory has been build for more than 10 years.

2.- Can I start with a sample order ?

---Yes, welcome to test our quality by sample order firstly.

3. How can I get the samples? Is that for free?

---We could send you samples to test but the shipping fee will be required before we dispatch it, and we will be more than happy to refund that once you place the order.
