

The integrated solar street lamp combines the best combination of green energy today (solar energy, LED light source, lithium battery). With the use of micro-controller, microwave sensor and other excellent technology. Combined with simple integrated structure design. Realize the requirements of low power consumption, high brightness, long service life and maintenance-free perfectly .While having better waterproof and heat dissipation performance.

Province, China Tel:+86-18944481288 E-mail:yzlx888@263.net

■ LUMINAIRE DIMENSION PLAN ■

Polysilicon solar panels diecasting aluminium housing bridgelux led chip 60W 100W  
road SOLAR led Street light

5 advantages:

1. Source manufacturer: Professional solar source manufacturers
2. The r&d team: A group of professional design and research teams
3. quality warranty: Excellent technology and high quality products
4. plentiful: The goods are plentiful in style and in stock
5. Authority certification: Product patent

molder NO.	real Watts	solar panel information	battery information	lumens	lamp material	IP rate	function
SSL020	7W	V/W: 6V/12W solar panel dimension: 340*290*18mm	lithium battery:3.2V/12A	600LM	diecasting aluminium lamp housing	IP65 waterproof	light sensor (automatically turn on at dark , automatically off when at daytime )
SSL040	15W	V/W: 6V/25W solar panel dimension: 450*360*18mm	lithium battery:3.2V/20A	1500LM	diecasting aluminium lamp housing	IP65 waterproof	
SSL060	20W	V/W: 6V/45W solar panel dimension: 450*360*18mm	lithium battery:3.2V/40A	2000LM	diecasting aluminium lamp housing	IP65 waterproof	
SSL0100	30W	V/W: 6V/60W solar panel dimension: 480*410*18mm	lithium battery:3.2V/45A	3000LM	diecasting aluminium lamp housing	IP65 waterproof
