

Metal - Sintered Diamond Dicing Blade

Metal - Sintered Diamond Dicing Blade is used for cutting and slotting varieties of hard or fragile materials. Such as silicon slices, glass, ferrite, quartz crystals, piezoelectric ceramics, optical glass, FR4, BGA and QFN packages, BGA, magnetic heads, optical sensors, communication, MEC, QFN, etc

China Metal - Sintered Diamond Dicing Blade with Free Sample

Metal - Sintered Diamond Dicing Blade is sintered from a combination of diamond powders and metal bonds. It comes with excellent form holding characteristics, and an extremely high wear resistance, is used for cutting and slotting of electronic and optical components.

Features of Metal - Sintered Diamond Dicing Blade

- * Ultra-thin and longer life
- * Very high rigidity and very low wear rates (Slower wear rate than Resin but faster than Nickel)
- * Diamond grit size ranges from 2 microns to 70 microns (depending on blade thickness)
- * Able to control diamond concentration to achieve cutting quality

Applications of Metal - Sintered Diamond Dicing Blade

Metal diamond dicing blade is used for cutting and slotting varieties of hard or fragile materials. Such as silicon slices, glass, ferrite, quartz crystals, piezoelectric ceramics, optical glass, FR4, BGA and QFN packages, BGA, magnetic heads, optical sensors, communication, MEC, etc

Sticking to the principle of "Super High-quality, Satisfactory service", We are striving to generally be a very good business partner of you for 2019 Latest Design China Metal Sintered Dicing Blades Diamond Dicing Blades Ht-RM Series, Welcoming fascinated organizations to cooperate with us, we glance ahead to possessing the opportunity of working with companies round the earth for joint development and mutual results. 2019 Latest Design China Diamond Dicing Blades, Diamond Dicing Blade, Insisting on the high quality generation line management and customers pro assistance, we now have designed our resolution to supply our buyers using the to start with amount getting and just after services practical experience. Maintaining the prevailing friendly relations with
