

Resin Bond Diamond Grinding Wheel For Carbide

Workpiece Materials: grinding tungsten carbide cutting tools, ceramic , magnetic materials, silicon , glass , quartz and thermal spraying alloy ,etc

Applicable Industry: CNC Tool Grinding, Woodworking Tool Grinding, Thermal Spraying Coated, Silicon Wafer Grinding, etc

Type: 1A1R, 1A1, 3A1, 1V1, 4A2, 4BT9, 6A2, 11V9, 12A2, 14F, etc

Welcome to buy Resin Bond Diamond Grinding Wheel For Carbide from us.

Wholesale Resin Bond Diamond Grinding Wheel For Carbide Manufacturers in China

Resin bond grinding wheels are the most commonly used super abrasive product currently. Our Resin Bond Diamond Grinding Wheel For Carbide is suitable for surface grinding, OD grinding, centerless grinding, tool grinding, fine grinding ,double disc grinding and slot grinding of most precision workpieces.

Applications of Resin Bond Diamond Grinding Wheel For Carbide

Resin bond diamond grinding wheel is mainly used for machining tungsten carbide cutting tools, ceramic ,magnetic materials, silicon ,glass ,quartz and thermal spraying alloy ,etc

Advantages of Resin Bond Diamond Grinding Wheel For Carbide

- * High cutting efficiency, good self-sharpening, less blocking, reducing the grinding burn occurs when the phenomenon of work
- * Good flexibility will help to improve the surface roughness, mainly used for rough grinding, semi-fine grinding, polishing and other processes
- * Compared to conventional silicon carbide , resin diamond wheel has good material removal rates, longer wheel life and lower grinding costs
- * Resin bond diamond wheels generally remove material up to 10 times faster than metal bond wheels

1A1R Diamond Cutting Disc for optical glass, quartz and sapphire, etc

1A1 Diamond Grinding Wheel, flat diamond wheel for carbide grinding

More SuperHard resin diamond wheels are widely used for grinding carbide HVOF coated. The diameter from 25mm (1") to 915mm (36")

3A1 diamond wheel for grinding micro drill, 14A1 diamond wheel for grinding carbide rod

Xinghua Diamond

Diamond Cup Grinding Wheel. (1a2, 6a2, 11a2. etc)

Tel:+86-510-86069220

Email:wang@jyxhzs.com

CNC Tools Grinding Wheel. (1a1, 1v1, 11v9, 14a1, 14f1, etc)

More SuperHard services include fluting, gashing clear edge and relief angle, OD grinding of the tungsten carbide, HSS, milling cutter, reamer and drill, etc

Woodworking Tools Diamond and CBN Wheels. (4a2, 4b9, 1f1 diamond cbn wheel, etc)

Centerless Diamond Wheels. Diamond lapping disc. double disc diamond wheel

Back Grinding Wheel for Silicon Wafer. optical profile grinding wheel. Glass diamond wheel

We now have a expert, performance staff to deliver high quality provider for our customer. We usually follow the tenet of customer-oriented, details-focused for Special Design for China Resin Bond Diamond Micron Super Abrasive Powder for Griding Polishing and Lapping of Glass Ceramics Carbide All Bond Grinding Wheel, We are looking forward to establishing long-term business relationships with you. Your comments and suggestions are highly appreciated. Special Design for China Synthetic Diamond, Industrial Polycrystalline Diamond, You can do one-stop shopping here. And customized orders are acceptable. Real business is to get win-win situation, if possible, we would like to deliver more support for customers. Welcome all nice buyers communicate details of solutions and ideas with us!
