

## Resin wheel for glass grinding

Welcome to buy Resin wheel for glass grinding from us. Every request from customers is being replied within 24 hours.

### Buy Customized Resin wheel for glass grinding FROM china Manufacturers

Resin/Bronze bond diamond wheel for glass edge grinding

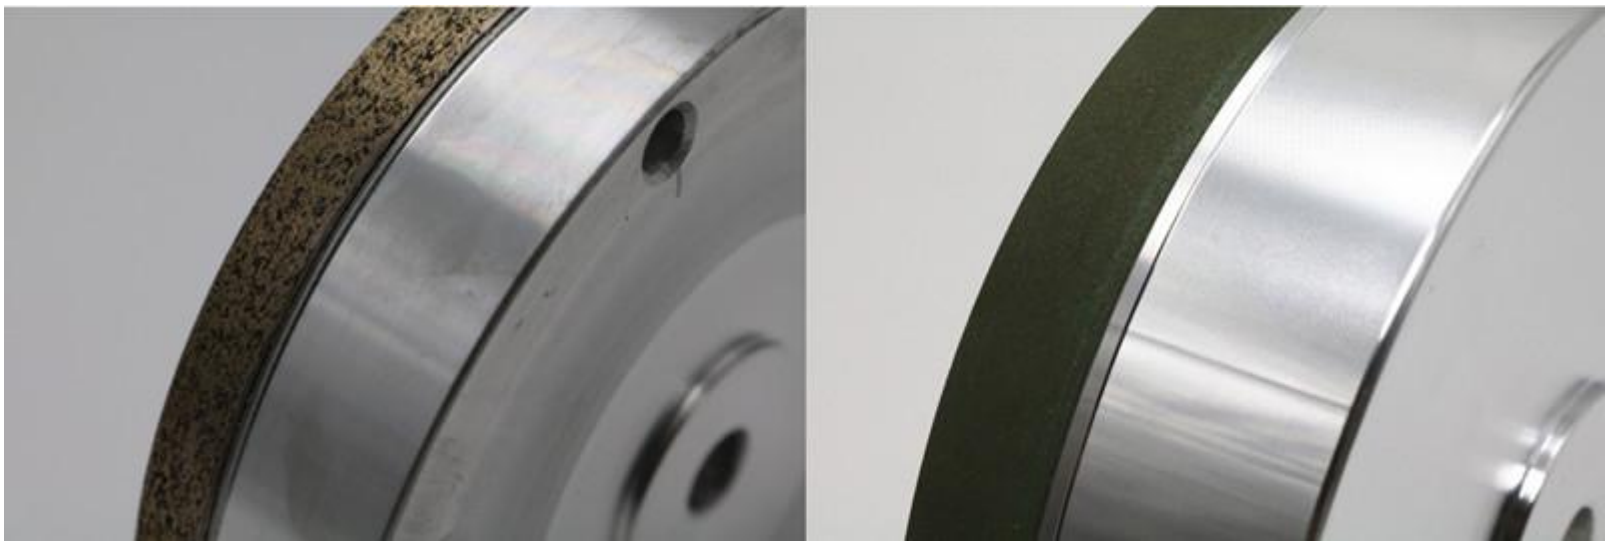

Features of Resin wheel for glass grinding

providing sharp and lasting grinding performance and keep the shape of wheel groove intact for longer time  
High efficiency of grinding, no broken or burned out  
Excellent wear-resistance ability  
Wide adaptability for various types of glass edge

3.applications of Resin wheel for glass grinding

suitable for the straight edge machine and the bilateral machine on the market

4.details of Resin wheel for glass grinding

### 5. specifications of Resin wheel for glass grinding

Abrasive: Diamond

Bonding agent: Resin/Bronze

bronze wheel	Diameter	Height	Width	Hole(customized)	Grit(customized)
	100	8	5	22	240
	130	10	8	12	240
	150	10	8	12	240
	150	7	5	22	240
	175	7	5	22	240
resin wheel	Diameter	Height	Width	Hole(customized)	Grit(customized)
	130	12	15	12	240
	150	12	15	12	240
grinding head	35*22*r5				
	50*22*t4				

### 6. advantages

better wear resistance,

long service life

can grind glass with a variety of thickness

As a way to present you with ease and enlarge our enterprise, we also have inspectors in QC Staff and assure you our best company and product for Good quality China Jfb010 Resin Bond Diamond Grinding Wheel for Glass Edging, We never stop improving our technique and top quality to keep up with all the growth trend of this industry and meet your satisfaction effectively. Should you be interested within our solutions, please get in touch with us freely. Good quality China Resin Bond Grinding Wheel, Resin Bond Diamond Grinding Wheel, Regarding quality as survival, prestige as guarantee, innovation as motive force, development along with advanced technology, our group hopes to make progress together with you and make untiring efforts for the bright future of this industry.
