

### Segment CNC Diamond Wheel

Type: Segment CNC Diamond Wheel

Shape: edge, flat shaped

Size: 100 \* 35 \* 22 \* 40

### Customized Segment CNC Diamond Wheel Manufacturers, Suppliers from China

#### Applications of segment CNC diamond wheel

Full segment CNC diamond grinding wheel is used for glass edge grinding. Suit for Flat glass,safety glass,tempered glass,architectural glass, frosted glass,patterned glass,Insulated glass,laminated glass,glass brick,optical glass,Auto Glass,solar glassand so on.

**Applicable machine:** straight edge machine, beveling machine and double edge machine, CNC machines, etc

#### Specifications of segment CNC diamond wheel

Diameter	100mm 120mm 150mm 175mm 200mm
Hole	22mm 25mm 50mm
Thickness	6mm 8mm 10mm 12mm 14mm 20mm 25mm
Application	Rough grinding flat edge glass
Machine	CNC machine
Other size can be made according to customer requirement
