

Complete Equipment For Dry Mortar

LUCHEN® Complete equipment for dry mortar because of its energy-saving, environmental protection, professional, the characteristics of the juvenile, is currently the fastest growing green new building materials products, Complete equipment for dry mortar has many years of raw material conveying LuChen machinery. As a professional high quality Complete Equipment For Dry Mortar manufacture, you can rest assured to buy Complete Equipment For Dry Mortar from our factory and we will offer you the best after-sale service and timely delivery.

Product Description

Complete equipment for dry mortar because of its energy-saving, environmental protection, professional, the characteristics of the juvenile, is currently the fastest growing green new building materials products, LUCHEN® Complete equipment for dry mortar made in China has many years of raw material conveying LuChen machinery, ingredients, mixing equipment design and production experience, fusion and absorb the current European most mature technology, independent research and innovation the FB series dry mortar production of complete sets of equipment, process optimization, high efficiency and energy saving, green environmental protection characteristics.

LUCHEN® Complete Equipment For Dry Mortar

Structure	Equipment Type	Host Capacity(L)	When production(T)	Output(MT)
Tower	FBT2000	2000	20-40	4.8-9.6
	FBT4000	4000	40-80	9.6-19.2
	FBT6000	6000	60-120	14.4-28.8
Station Type	FBZ1500	1500	10-30	2.4-7.2
	FBZ2000	2000	20-40	4.8-9.6
	FBZ4000	4000	40-80	9.6-19.2
	FBZ6000	6000	60-120	14.4-28.8
Ladder	FBJ1500	1500	10-30	2.4-4.8
