

HZS Series Concrete Mixing Station

As a complete equipment set for automatic concrete production, the LUCHEN® HZS series concrete mixing station is the product of continued improvement in order to meet the needs of modern applications. As a professional high quality HZS Series Concrete Mixing Station manufacturer, you can rest assured to buy HZS Series Concrete Mixing Station from our factory and we will offer you the best after-sale service and timely delivery.

Product Description

As a complete equipment set for automatic concrete production, the HZS series concrete mixing station made in China is the product of continued improvement in order to meet the needs of modern applications. LUCHEN® HZS series concrete mixing station is suitable for medium and large construction projects of hydropower, airport, road, bridge, etc.

- 1) HZS series concrete mixing station using the double horizontal shaft JS series forced mixer which has been produced by us for years;
- 2) HZS series concrete mixing station compact, flexible, allowing combination based on the site conditions and user's needs;
- 3) HZS series concrete mixing station equipped with electronic measuring system characterized by high precision and low failure rate;
- 4) HZS series concrete mixing station with screen display, ratio memory and auto compensation functions; allowing both automatic control and manual control.

LUCHEN® HZS Series Concrete Mixing Station

Model	HZS50	HZS75	HZS100
Capacity	50m ³ /h	75m ³ /h	100m ³ /h
Mixer	JS1000	JS1500	JS2000
Discharge height	3.8m	3.8m	4m
Aggregate bin volume	4x7m ³	4x10m ³	4x15m ³
Aggregate weighing accuracy	±2%	±2%	±2%
Powder weighing accuracy	±1%	±1%	±1%
	±1%	±1%	±1%

Water weighing accuracy			
Additive weighing accuracy	±1%	±1%	±1%
Cement screw conveyor	Φ219	Φ273	Φ273
Fly ash screw conveyor	Φ219	Φ219	Φ219
Power	105kW	130kW	170kW
Weight (excluding the bin)	21t	24t	38t
