

JS Series Mixer

LUCHEN® JS series mixer employing the optimized design presented by us with reference to German and Italian technologies and the planetary gear reducer. The following is the introduction of high quality JS Series Mixer, hoping to help you better understand JS Series Mixer. Welcome new and old customers to continue to cooperate with us to create a better future!

Product Description

JS series mixer made in China employing the optimized design presented by us with reference to German and Italian technologies and the planetary gear reducer. The LUCHEN® JS series mixer from China factory has stable operation, low noise, low energy consumption, high efficiency, a compact structure and overload protection function. The angles of mixing arm and blade are reasonable designed to ensure good mixing performance, high speed and low wear. The concrete mixing plant equipped with the JS serie mixer can prepare various types of concrete, especially stiff concrete, and is suitable for medium-sized or larger construction projects of hydropower, road, port, dock, bridge, etc. as well as large and medium-sized prefabricated member and concrete producers.

LUCHEM® JS Series Mixer

Model	JS1000	JS1500	JS2000	JS3000	JS4000
Loading capacity (L)	1600	2400	3200	4800	6400
Discharge capacity (L)	1000	1500	2000	3000	4000
Max. dia. of aggregate (mm)	80/60	80	80	100	120
Mixer motor (kW)	2x18.5	2x30	2x37	2x55	2x75
Outer dimension (L * W * H) (mm)	3420x2040x1450	3550x2040x1600	3650x2470x1475	4050x2470x1475	4200x2856x1680
Weight (kg)	5100	6320	10020	12400	14500
