ProductParameter (Specification)

Model number	color	size	material
JY-B9117	As the photo show	3/4" in. FNH * 3/4" in. MNH	brass

Product Feature And Application

Feature:

- ★ When fully open and fully closed, the sealing surface of the ball and the valve seat is isolated from the medium. Therefore, the medium passing through the valve at high speed will not cause the erosion of the sealing surface. With compact structure and light weight, it can be considered as the most reasonable valve structure for low-temperature medium system.
- ★ Easy to turn grip handles that don't require pliers so anyone can open or close the valves without hurting their hands.
- ★ Quality brass fitting, solid construction, Will never rust, excellent durability

Application: Fitting in Patio, Lawn & Garden

why choose us?

We have 2 sets vertical machining centers, 180sets CNC lathes, 4 sets CNC drilling machines, 2 sets hydraulic wheel machines, 8 sets hot forging machines, 9 sets cold stamping machines and 2 sets sand-blasting machine, and our factory not only owns the advanced production equipment, but also owns professional technical personnel and a large group of skilled workers, so we will strictly control the product quality.
