

**Disposable Protective Children Masks**

You can rest assured to buy customized Fealter® Disposable Protective Children Masks from us. Fealter® Disposable Protective Children Masks greatly matches children's faces. The metal stripe at the top of the mask can be freely folded into different shapes, making it possible to tightly cover the lower part of your face, from nose to the whole jaw. And with the metal strip, children who wear glasses can avoid an embarrassing situation that the gas you exhale turns into drops adhering to your glasses.

As the professional manufacture, we would like to provide you high quality Fealter® Disposable Protective Children Masks. And we will offer you the best after-sale service and timely delivery.
