

## K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1

The MeiYunsheng® is a professional manufactures of K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1. Our professional expertise in manufacturing K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1 has been honed over the past 10+ years. The following is about K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1, i hope to help you better understand K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1.

### Product Description

MeiYunsheng is a professional leader China K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1 manufacturer with high quality and reasonable price. Welcome to contact us.

### 1.Description of The MeiYunsheng® K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1

product name	K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1
material	Plastic/ABS
size	29.5 *10.8 *18 cm
Capacity	2200ml
Production capacity	2000ps per day
Sample time	5day
Packaging details	one piece in one box
MOQ	50ps

## **2.performance description of The MeiYunsheng® K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1**

Product name:K9 Soap Dispenser with Non Contact Infrared Thermometer 2 in 1

Model: 8868

Capacity: 2200ml

Sensing distance: about 5cm-10cm, 0.25 second quick liquid discharge

Working temperature: 3℃~40℃

Product specifications: 29.5 \*10.8 \*18 cm

Packing size: 31 \*11.2\*18.7cm

color: White

Packing quantity: 20PCS

Carton size: 65\*41\*60 cm

Accessories: USB data cable\*1 Sticky hook\*2 Paste\*2 Manual\*1 Screwdriver\*1

## Technical Data

Accuracy	+/-0.2°C (34~45°C, put it in the operating environment for 30 minutes before use)		
Alarm type	Flashing + bleeping "DiDiDi"	Input	DC 5V 1A
Measuring distance	5cm~10cm	Product power	3W
LED display	Number	Liquid type	Hand sanitizer
Interface	USB Type-C Port	<b>Advantages</b>	
Bottle Capacity	1000mL		
Mounting Type	Wall-hanging, Tripod-fixed	• Automatic induction no-clean disinfection soap dispenser, more convenient to use	
Working Temperature	8.10°C~40°C (15°C~35°C Recommended)	• Large digital display, high-definition display	
Measuring range	0~50°C	• High-precision sensor, stable and reliable performance	
Standby time	5s for non-working, dynamic loop with white dot	• With intelligent point saving end automatic wake-up function	
Dimension	119x133x280mm	• Strong adaptability to environment temperature	
Net weight	702g	• Large-capacity soap liquid, longer life cycle	

Non-contact Automatic Temperature Measurement

Sterilization is more effective

**K9 Automatic Temperature Measurement & Disinfection Machine**
