

### **Push Pull Cap Mould**

The push pull cap mould is made of Japanese high quality steel, using computer 3d drawing design, advanced and reasonable design to ensure the product quality is reliable and stable, each mold cavity and mold core has an independent condensing system.

### **Product Description**

### **Push Pull Cap Mould**

### **Introduction Of push pull cap mould**

The push pull cap mould is made of Japanese high quality steel, using computer 3d drawing design, advanced and reasonable design to ensure the product quality is reliable and stable, each mold cavity and mold core has an independent condensing system.

### **Feature Of push pull cap mould**

\*The push pull cap mould is designed with 3D computer drawing and therefore the product yield rate is enhanced.

\*The cap mould is made of high grade steels from Japan and imported P20 and 2316 etc.

\*The push pull cap mould is designed with advanced second-level taper positioning technology and slide type independent self-locking, hence the concentricity of the product is guaranteed.

\*push pull cap mould adopts advanced and reasonable design, each cavity having independent temperature control and heating system, which boasts an even heating temperature and keeps product with reliable and stable quality.

\*Cap mould has independent condensation system in each mould cavity and mould core. Mould cavity is replaceable, so that the label on top of cap can be changed.

## Application Of push pull cap mould

The push pull cap mould adopts advanced and reasonable technology, each cavity has its own temperature control, heating system and condensing system, which can effectively improve the yield of products.

## Details Of push pull cap mould

These pictures show you the details of push pull cap mould, and hope to help you understand this product effectively.

**Qualification Of push pull cap mould**

**Deliver,Shipping And push pull cap mould**

Packing:wooden case

WAY OF TRANSPORT:BY SEA,BY AIR OR BY RAILWAY.

PAYMENT:T/T.50% DEPOSIT,50% THE BALANCE OF PAYMENT BEFORE SHIPMENT.

## FAQ

Q:How long does it take to install the equipment

A:push pull cap mould is easy to installed,we have adjust all of machine parts,you just connect the electric and pneumatic then machine in regular work.

Q:How many people do you send abroad to install the equipment?

A:One person.

Q:Can I send goods from other suppliers to your factory? Then load together?

A:It's no problem,But the goods need to declare separately.

Q:How to arrange your Spring Festival vacation

A:For office staff,we usually go to work on the Ninth of the first lunar month.And the holiday about 15 days.For workshop,they usually go to work on the fifteenth day of the first month of lunar year.

Q:Can your equipment be installed in hot weather?

A:Yes.

Q:Can your product be installed in cold weather?

TAIZHOU HONGJINGSHENG PLASTIC MOULD CO.,LTD.

Phone:+86-15990049143

E-mail: miya@hjsmould.com

A:Yes.

Q:Can you send your staff to our side to install equipment for us?

A:Yes.

Q:Can I buy only some spare parts from you?

A:For machine parts, if you purchase push pull cap mould in our factory,we can provide some parts for you in the future.

Q:Will you participate in the exhibition?

A:Yes.We usually join Chinaplas and some foreign exhibitions.

Q:Can you send your equipment to the Guangzhou warehouse?

A:Yes.We usually quote Fob Ningbo price.If you need other terms,just let me know before place an order.

Q:How long will it take you to provide us with a design solution?

A:For design,3-7 days after received the prepaid.We only show the picture for reference and don't provide any 3D design of machine.

Q:What are your equipment manufacturing standards?

A:CE

Q:How do you pack the equipment?

A:Wooden case

Q:Can you design the equipment according to our size?

A:Yes.push pull cap mould can be customized.

Q:How many years has your company made this equipment?

A:More than 20 years.

Q:How many employees does your factory have?

A:70

Q:Do you have any pictures of real equipment items?

A:Yes.

Q:How far is the hotel in your factory?

A:About 10 minutes.

Q:How far is your factory from the airport?

A:About 50 minutes by driving car.

Q:How long does it take from Guangzhou to your factory?

A:If you take a plane, need 3 hours.

Q:Where is your factory?

A:Taizhou, Zhejiang province.

Q:Do you provide free spare parts?

A:It depends on machine equipment.

Q:What is the applicable age range of push pull cap mould?

A:Unlimited use.

Q:Do you have a detailed and professional installation manual?

A:Yes.

Q:Do you provide samples? Free or charge?

A:Less sample is free.

Q:What is your minimum order quantity?

A:For products,MOQ is 100000pcs.For mold and machine,the MOQ is 1 sets.

Q:Are you a trading company or a manufacturer?

A:Manufacturer.

Q:How long is your delivery time?

A: Machine:30-60 days

Mold:20-60 days.

Products:depends on quantity.

Q:How many production lines does your factory have?

A:We have 20 sets of injection molding machine to product push pull cap mould.
