

## **Water Proof Automation Part Turn Electric Actuator**

AOX Water proof Automation part turn electric actuator is suitable for switching small ball / plug valves and air valve automation. AOX Water proof Automation part turn electric actuator in the practical application of the innovative product design concept has been many attention and recognition. AOX has its own factory in China. Choose AOX is a professional choice, AOX will wholeheartedly provide you with quality products and efficient service.

## **Water Proof Automation Part Turn Electric Actuator**

AOX Water proof Automation part turn electric actuator is suitable for switching small ball / plug valves and air valve automation. AOX Water proof Automation part turn electric actuator in the practical application of the innovative product design concept has been many attention and recognition. AOX has its own factory in China. Choose AOX is a professional choice, AOX will wholeheartedly provide you with quality products and efficient service.

## AOX Water proof automation part turn electric actuator Introduction

AOX Water proof automation part turn electric actuators are suitable for small space, and are designed for the automation of butterfly valves, ball valves, dampers and rotary machines. Widely used in petroleum, chemical, water treatment, shipping, paper, power plant, heating, light industry and other industries. AOX Water proof automation part turn electric actuator for a variety of harsh industrial applications with high positioning accuracy and compact structure. AOX is the preferred supplier of many large enterprises. We look forward to becoming your long-term partner in China.

## Structural Features

## Product Image

## Product Image

Electric UPCV ball valve

Electric three-way ball valve

Electric ultra-thin ball valve

Electric flanged ball valve

Electric female thread ball valve

Electric V-type ball valve

## AOX Water proof automation part turn electric actuator Parameter (Specification)

Model	Max output torque	Operating Time 90°	Drive shaft(mm)		Power	Rated current (A)	Weight
	N·M	( 90°)	Square	Deep	(W)	220VAC/1ph	(kg)
AOX-R-003	30	20	11×11	15.5	8	0.25	2.1
AOX-R-005	50	30	14×14	18	10	0.24	3.6
AOX-R-008	80	30	14×14	18	10	0.26	3.6
AOX-R-010	100	30	17×17	22.5	15	0.40	4.6
AOX-R-015	150	40	17×17	22.5	15	0.42	4.6
AOX-R-020	200	30	22×22	26	60	0.28	13
AOX-R-030	300	30	22×22	26	60	0.32	13.4
AOX-R-040	400	30	22×22	26	60	0.34	13.8
AOX-R-060	600	40	27×27	32.5	60	0.35	14
AOX-R-080	800	40	27×27	32.5	90	0.56	14.3
AOX-R-100	1000	40	27×27	32.5	90	0.59	14.5
AOX-R-160	1600	60	Max Φ40	65	90	0.60	68
AOX-R-200	2000	60	Max Φ40	65	90	0.62	68
AOX-R-300	3000	120	Max Φ40	65	90	0.64	68
AOX-R-400	4000	200	Max Φ40	65	90	0.66	68
AOX-R-500	5000	200	Max Φ40	65	90	0.67	68

## AOX Water proof Automation part turn electric actuator Feature And Application

Power: AC85 265V ,AC380V, AC/DC24V multi power input,  
AC 220V/110V/AC 24V/DC 24V single power input.

Environment temp: -20℃~70℃ .

Related humidity: <90%(25℃).

Environment: Without any high corrosion and explosion medium.

Working time: S1 long time standard for both On-off and modulating type.

## Comparison With Other Products (Eight Major Improvements)

Other manufacturers	Description	Other manufacturers	Description
	The gasket is easily deformed by temperature and other reasons, resulting in reduced sealing performance, which is not very aesthetically pleasing.		The combination of upper and lower cover adopts concave and convex structure, inner gasket O-ring, strong sealing performance, beautiful appearance, high protection level, more convenient for debugging and wiring, only need to open the upper cover
	The use of chemical adhesives may lead to ageing and water ingress due to high temperatures and pressures on site, and the plastic and glazing are easily damaged.		Convex mirror surface, no water accumulation; and continuous valve opening indication, more convenient observation, external metal, not easy to damage
	Ordinary terminal blocks, in the field of temperature difference or vibration, will cause the fastening screws to loosen, resulting in poor contact phenomenon.		The use of self-actuating pop-up terminals guarantees absolute reliability and is a symbol of high-end products.
	The gearboxes are made of plastic, and individual manufacturers use powder alloys for the gears, which are prone to wear.		The gearbox is made of 40Cr, refined by three heat treatments, more solid and reliable

Patent No.: ZL 2013 3 0145624.9  
 ZL 2013 3 0145691.0  
 ZL 2013 3 0112341.4  
 ZL 2013 3 0112302.4

## Comparison With Other Products (Eight Major Improvements)

	Spanner not fixed to the case, easily lost		The spanner is placed on the box, so it is not easily lost on site and is easy to use
	Regulated modules have built-in, electronic components that are affected by the temperature generated during operation.		The adjustment module is mounted externally and the bare board dissipates heat better, solving the contradiction that the maximum temperature of the actuator is 120° C while the temperature of the electronic components of the module is only 65° C. The weak control power supply is used and the quality of the module will not be affected by the unstable voltage on site.
	The screws of other manufacturers' housings are not equipped with an anti-dislodgement function, which can easily lead to the dislodgement of the screws during maintenance when removing the housing at height.		The top cover bolts are specially designed not to come off during maintenance and installation. All external bolts are made of stainless steel and will not rust
	Other manufacturers use M3 screws for unrealistic positioning, inaccurate, slippery threads, M3 spanners are not easy to find on site and other drawbacks.		AOX has improved the electrical cam structure by integrating the four cams into two and isolating them with a butterfly shaped bullet, topped with an anti-loosening nut, and using imported Omron travel switches.

Patent No.: ZL 2013 3 0111005.8  
 ZL 2013 3 0111120.5  
 ZL 2013 3 0111352.0

## AOX Water proof Automation part turn electric actuator details

1. Compact design: Small, light and compact design, high torque and various control option will meet your specific requirement.
2. Fully enclosed squirrel-cage asynchronous motor: The motor of AOX water proof automation part Zhejiang Aoxiang Auto-Control Technology CO.,Ltd

---

turn electric actuator is a specially designed induction motor that produces high starting torques and thermally protected from overheating.

3.Simple manual structure:The manual operation of AOX water proof automation part turn electric actuator is designed with spanner,it's safe, reliable, labor-saving.
