

Carousel Candle

The golden maple leaf carousel tea light candle holder is made of high-quality stainless steel material, which will never rust and is durable.

The golden maple leaf carousel tea light candle holder is made of high-quality stainless steel material, which will never rust and is durable.

All metal surfaces of rotary candle holder are processed by high-grade electroplating, and the surface is as bright as a mirror;

This maple leaf windmill candle holder has exquisite and meticulous metal patterns, and the hollowed out place can reveal a warm candle light to fill the whole room.

This maple leaf candlestick is driven by the rising heat of the candle to cause the top wind wheel to rotate. The wind wheel is hung with 5 exquisite maple leaf pendants. The maple leaves rotating in the candlelight are flying in the air like autumn;

The spinning tea light candlestick is suitable for various indoor occasions, such as weddings, restaurants, bedrooms, festive atmosphere, shopping malls, shop windows, clubs, hotels, etc.
