

## Christmas Stockings Rotary Candle Holder

Kingnero is a factory specializing in the production of rotary candle holder. Made of stainless steel, the product quality is very good, and the quality is ordered.

Kingnero is a factory specializing in the production of rotary candle holder. Made of stainless steel, the product quality is very good, and the quality is ordered.

This spinning candle holder is composed of multiple accessories and needs to be assembled by hand, not including candles.

When the carousel candle is lit, the rising airflow will drive the top turbine to rotate in time, no other moving devices are needed.

It is more fun to use at night. The pendants on the rotating candlesticks are bright and flashing, and the reflected candlelight spills over the entire room. In the daytime, when there is a breeze, this candlestick will also rotate with the wind, and it is also an exquisite tabletop decoration.

This rotating candlestick is suitable for various indoor occasions, such as bedrooms, dining rooms, living rooms, shopping malls, shop windows, hotels, clubs, etc.
