

## Hippocampal Candlestick

The seahorse spinning tea light candle holder is made of stainless steel, which will never rust and is durable, ensuring reliable product quality.

The seahorse spinning tea light candle holder is made of stainless steel, which will never rust and is durable, ensuring reliable product quality.

All the metal parts of our rotary candle holder are gold-plated, the surface is as bright as a mirror, and the quality of the workmanship is exquisite;

This seahorse windmill rotating candlestick, after lighting the candle, the candlestick is exposed through the metal hollow part, making the image of the seahorse more realistic, and at the same time allowing the warm candlelight to fill the whole room.

The seahorse windmill rotating candlestick uses the rising heat of the candle to drive the top wind wheel to rotate. The wind wheel is suspended with 5 exquisite seahorses, which rotate happily in the candlelight;

The seahorse rotary tea light candlestick is suitable for various occasions, such as restaurants, bedrooms, wedding decorations, holiday atmosphere, shopping malls, shop windows, clubs, hotels, etc., and can also be used as gifts for family and friends.
