Any size, any structure, only metal project, all fit for this pass type shot blasting equipment. For pass-through type shot blasting equipment, size of loading opening is a key, any metal proximate matters can treated if opening size is right. Pass-through shot blast machine is widely used in many industries.

Usual there is a assistant room on each end of main blasting room, opening of assistant room has rubber curtains to resist abrasive shot from room, and prevent dust escape. And at the same time it's easy for in-out of workpiece.

Usual blastwheels have set on top and bottom of blasting room, and seting angle is slant, thus to get a 360° blasting range for workpiece.

A pit will be needed. Pass type shot blasting machine has a screw conveyer under the blasting room, and several blastwheels has set on the room bottom, if no a pit to reduce the machien height, then roller conveyer will be high from floor, thus to loading and unloading are difficult. So customer need reserved a pit before make the floor, this's important things. To be the stage of realizing dreams of our employees! To build a happier, extra united and extra professional team! To reach a mutual reward of our shoppers, suppliers, the society and ourselves for Discount wholesale China New Style Tumble Conveyor Belt Type Sand Blaster Machine, Our remaining objective is "To attempt the best, To generally be the Best". You should sense free of charge to call with us when you have any prerequisites. Discount wholesale China Shot Blasting Machine, Shotblasting, Now, with the development of internet, and the trend of internationalization, we have decided to extend business to overseas market. With the propose of bringing more profits to oversea customers by providing directly abroad. So we've changed our mind, from home to abroad, hope to provide our customers more profit, and looking forward to more chance to make business.
