Single Position Rotating Table Type Shot Blast Machine

Single Position Rotating Table Type Shot Blast Machine has one rotating table in cabinet, and one blastwheel on cabinet top.

China Customized Single Position Rotating Table Type Shot Blast Machine

GND-T900 rotating table type shot blasting machine has one rotating table in cabinet, and one blastwheel on cabinet top. The table diameter is Ø900mm. You can put a big or some small workpieces at a time, and many kinds shape.

The table blaster has a door, not double doors, this structure is fit smaller table, if the table diameter is big than Ø1000mm, we will design double doors and the doors are cambered, then it will need more space of workingshop.

Materail of the table is wear resisting cast iron materail, so it has long life. And the table is made up of several wear resisting plates, these plates are split, so change is simple.

For many small workpieces can't collided against, this rotating table shot blast equipment is very right for them.
