1. Product Introduction of 100% Polyester Fiber Acoustic Panel

100% Polyester Fiber Acoustic Panel is also called polyester fiber decorative sound-absorbing panel, which is a kind of decorative material with sound-absorbing function made of polyester fiber as raw material by hot pressing and needle punching. The raw material used in the polyester fiberboard is polyester fiber cotton, which is made by special technology, showing the shape of cocoon cotton. When the noise is below 4000HZ, it can achieve complete sound insulation and has a very good sound insulation effect. And it is a green product. It is also very convenient in daily maintenance and easy to clean. If you want to choose sound insulation and acoustic materials, polyester fiberboard is the most suitable.

2. Specification of 100% Polyester Fiber Acoustic Panel
