We make the delivery according to customers' requirements. Although delivery time depends on the order quantity and the complexity of it, we still try to supply solutions in time. Sincerely hope we could have long term business relationship.

#### 1.Introduction of Acoustic Sound Panels For Conference Room

QDBOSS Acoustic Sound Panels For Conference Room use high quality fiberglass board with different flame retardant fabric. This type of acoustic panel is environmental friendly, widely used, sound absorption, well decorative, easy installation, no dust pollution etc. The fiberglass board is much more eco-friendly than rockwool board, less pollution in production process.

The Acoustic Sound Panels For Conference Room are designed to absorb harsh, distracting noises like echo and reverb to help the right sound through and resonate with audiences. Hardened edges for the acoustic panel can help increase durability in Cinema, Multi-purpose Rooms, Meeting room, KTV, Hotel, Music Rooms, Auditoriums and Theaters.
