

Cinema Acoustic Panels

Cinema Acoustic Panels are synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

Buy Low Price Cinema Acoustic Panels Made in China

We provide excellent toughness in excellent and advancement, merchandising, gross sales and promoting and operation for OEM China China Sound Proofing Cinema Acoustic Panels, We warmly welcome customers, business associations and buddies from all over the earth to call us and seek cooperation for mutual rewards. OEM China China Acoustic Panel, 3D Wall Panel, We set a strict quality control system. We've return and exchange policy, and you can exchange within 7 days after receive the wigs if it is in new station and we service repairing free for our products. Please feel free to contact us for further information if you have any questions. We're glad to work for every client.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, easy installation, environmental friendly.

2. Specification Of Polyester fiber acoustic panel

| | |
|-----------------------|---|
| Product Name | Cinema Acoustic Panels |
| Material | 100% Polyester Fiber |
| Density | 200kg/m ³ |
| Weight | 1.8kg/m ³ |
| Size | 1220*2420mm |
| Thickness | 3mm - 15mm or customized thickness |
| Flame retardant (CNS) | B1 |
| FSI | Class A |
| NRC | 0.85-0.95 |
| ECO Grade | E1 |
| Certificates | American CA117, British BS5852, Australian AS1530, CE |
| Colors | More than 44 colors available or customized colors |

3. PRODUCT APPLICATION

- (1). Sound-adsorbing wall panel and suspended ceiling
- (2). Interior wall decorative panel
- (3). Cinema Acoustic Panels is Insulation materials
