

Flame Retardant Acoustic Fabric Panel

Flame Retardant Acoustic Fabric Panel uses high quality fiberglass board with different flame retardant fabric. This type of acoustic panel is environmental friendly, widely used, sound absorption, well decorative, easy installation, no dust pollution etc.

Buy Discount Flame Retardant Acoustic Fabric Panel Made in China

We rely upon strategic thinking, constant modernisation in all segments, technological advances and of course upon our employees that directly participate inside our success for Factory best selling China Flame Retardant Acoustic Fabric Panel, Welcome to visit our firm and factory. Be sure to come to feel free to get in touch with us in case you need any additional assistance. Factory best selling China Acoustic Panel, Fiber Glass Panel, We've got been in operation for more than 10 years. We are dedicated to quality products and consumer support. We currently own 27 product utility and design patents. We invite you to visit our company for a personalised tour and advanced business guidance.

1.Introduction of Flame Retardant Acoustic Fabric Panel

QDBOSS Fabric wrapped acoustic panel uses high quality fiberglass board with different flame retardant fabric. This type of acoustic panel is environmental friendly, widely used, sound absorption, well decorative, easy installation, no dust pollution etc. The fiberglass board is much more eco-friendly than rockwool board, less pollution in production process. The Flame Retardant Acoustic Fabric Panel is designed to absorb harsh, distracting noises like echo and reverb to help the right sound through and resonate with audiences. Hardened edges for the acoustic panel can help increase durability in Cinema, Multi-purpose Rooms, Meeting room, KTV, Hotel, Music Rooms, Auditoriums and Theaters.
