China Customized Home Theater Acoustic Wall Panel Price

Our company insists all along the quality policy of "product quality is base of enterprise survival; customer satisfaction is the starting point and ending of an enterprise; persistent improvement is eternal pursuit of staff" and the consistent purpose of "reputation first, customer first" for China New Product China Home Home Theater Acoustic Wall Panel, As we're moving forward, we maintain an eye on our ever-expanding item range and make improvement to our expert services. China New Product China 3D Acoustic Panel, Polyester Fiber Board, "Create Values,Serving Customer!" is the aim we pursue. We sincerely hope that all customers will establish long term and mutually beneficial cooperation with us.If you wish to get more details about our company, Be sure to contact with us now!

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. Polyester Acoustic Panel is ideal to provide a practical and felt like design solution for any wall situation. It provides not only a colorful felt like finish but also has strong acoustic benefits as well.

Polyester Acoustic Panel is about one third the weight of MDF or plasterboard in equivalent sizes. It is a face finished product, pin-able, slim and is can be used as double sided or single sided panel, giving it the desirable benefits of fitting into slim-line framing systems and requiring less bulk in coping with its light weight.

Due to it being a finished surface in itself, Echo Panel reduces costs in labor and materials in many applications, including workstations and wall panel.

2.Specification Of Polyester fiber acoustic panel

Product Name	Home Theater Acoustic Wall Panel
Material	100% Polyester Fiber
Density	200kg/m ³
Weight	1.8kg/m ³
Size	1220*2420mm
Thickness	3mm - 15mm or customized thickness
Flame retardant (CNS)	B1
FSI	Class A
NRC	0.85-0.95
ECO Grade	E1
Certificates	American CA117, British BS5852, Australian AS1530, CE
Colors	More than 44 colors available or customized colors
