

Polyester Fiber Acoustic Sheets

Polyester Fiber Acoustic Sheets are synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

China Wholesale Polyester Fiber Acoustic Sheets Quotation

"Based on domestic market and expand overseas business" is our development strategy for Factory best selling China 9mm Sound-Absorbing Wall Acoustical Decoration Polyester Fiber Polyester Fiber Acoustic Sheets, To deliver prospects with excellent equipment and providers, and frequently create new machine is our company's organization objectives. We look forward for your cooperation. Factory best selling China Acoustic Panel, Polyester Fiber Panel, If any item be of interest to you, be sure to allow us to know. We'll try our best to satisfy your requirements with high quality merchandise, the best prices and prompt delivery. Remember to feel free to contact us at any time. We'll reply you when we receive your inquiries. Please note that samples are available before we start our business.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

It is designed primarily for commercial interiors:

as a perfect replacement panel for textile-covered tiles in workstation systems

to provide a lighter, more flexible and recyclable wall panel and demountable partitioning system

a sustainable substitute for ceiling tiles and soft floor applications.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, easy installation, environmental friendly.

2.Specification Of Polyester fiber acoustic panel

Product Name	Polyester fiber acoustic sheets
Material	100% Polyester Fiber
Density	200kg/m ³
Weight	1.8kg/m ³
Size	1220*2420mm
Thickness	3mm - 15mm or customized thickness
Flame retardant (CNS)	B1
FSI	Class A
NRC	0.85-0.95
ECO Grade	E1
Certificates	American CA117, British BS5852, Australian AS1530, CE

Colors

More than 44 colors available or customized colors
