

### Studio acoustic Panel

Many people like to do some acoustic treatment for their studio. Then the acoustic panel is necessary. We produce the polyester fiber panel as the studio acoustic Panel.

### China Customized Studio acoustic Panel Suppliers

We have been also concentrating on enhancing the things management and QC method so that we could preserve terrific edge inside the fiercely-competitive enterprise for Wholesale ODM China Isoking Fiberglass Acoustic Panel for Studio acoustic Panel, We always hold the philosophy of win-win, and build long-term cooperation relationship with customers from around the world. We believe that our growth base on customer's success, credit is our life. Wholesale ODM China Fiberglass Acoustic Panel for Studio, Fiberglass Acoustic Panel, With the first-class goods, excellent service, fast delivery and the best price, we've got won highly praise foreign customers'. Our merchandise have been exported to Africa, the Middle East, Southeast Asia and other regions.

#### 1. Product Introduction of Studio acoustic Panel

Many people like to do some acoustic treatment for their studio. Then the acoustic panel is necessary. We produce the polyester fiber panel as the studio acoustic Panel. It is also called polyester fiber decorative sound-absorbing panel, which is a kind of decorative material with sound-absorbing function made of polyester fiber as raw material by hot pressing and needle punching. The product has the characteristics of decoration, heat preservation, flame retardant, environmental protection, light weight, easy processing, stability, impact resistance and easy maintenance. Become the preferred sound-absorbing material for interior decoration.

#### 2. Specification of Studio acoustic Panel

Core	Polyester Fiber
------	-----------------

Thickness	9mm 12mm
Size	1220x2420mm
Weight	1.2-2kg/sqm
NRC	0.9-0.95
Feature	Flame retardant and Acoustic

### 3 .Features of Studio acoustic Panel

One: Broad sound absorption spectrum It has better sound absorption effect for low, medium and high frequency noise. It can fully absorb the daily 125-4000Hz noise, shorten the reverberation time, improve the sound performance, and improve the clarity of speech.

Two: strong decorativeness Polyester fiber sound-absorbing panels have a variety of surface decorative cloths in different colors to choose from. The facing cloth can also be provided by the customer. And according to the requirements of acoustic decoration or the owner, the material of the facing cloth and frame can be adjusted, so that this product can create a comfortable, quiet, warm and elegant indoor environment, which has both sound absorption and decoration effects.

Three: Fire and flame retardant Flame retardant performance is one of the important safety indicators of building materials. In the production process of polyester fiber sound-absorbing panels, RS-1241 type flame retardant imported from the United States is added to make the entire product have strong flame resistance.

Four: Good heat preservation effect. It has excellent heat insulation performance, whether it is in high temperature or low temperature environment, it can maintain sufficient heat insulation effect, thus creating a very comfortable indoor space.

Five: Dimensional stability It has good physical stability and will not deform the size and appearance of the sound-absorbing panel due to changes in temperature and humidity.

Six: Lightweight fabric sound-absorbing panels are lightweight and exquisite, weighing only 1--3kg per square meter, which can greatly reduce the load on the steel frame of the building and improve the seismic performance.

Seven: Strong elasticity with good elasticity, it is not easy to break under strong impact.

#### 4. Delivery and Shipping Service of Studio acoustic Panel

Qdboss Studio acoustic Panel is packed in durable cartons, it is safe to be shipped by truck, sea and plane. Qdboss factory is located in the Jiaozhou, Qingdao, only one hour drive to the famous Qingdao Port and Qingdao Jiaodong International Airport.
