Super power for drying gels

Advantages

ODM service also available for this lamp, You can customize your logo on it.

OEM, Like change quantity of LEDs. Or design a new lamp.

33 lamp LEDs are spread in all places under the lamp, it dries all gels very fast in 360 degrees and angles. This nail lamp also can cure foot nail gels as it has enough room for putting a foot in it.

UV Nail dryer lamp with a higher technology whitening function. From all 33 curing beads, 30 lamp beads white light source, which are mainly used for nail art, and 3 lamp beads are red light, mainly for whitening and fast curing gels. It is a smart design because some users are afraid to use a such power machine to dry gels and caring if it would blacken hands or damage nail.

Infrared auto-sensing device, This is a function that makes your nail salon more easier to process when it is working you can put hands directly in it that machine will work.

Total 3 timer settings, Some gel is harder to dry in nail art, the timer will help for various kinds of gels. Fastest cure time is around 10s.

UV nail machine also with a painless mode, 90s low painless mode, can be set according to need.

It has three speeds, 30s/60s/90s, which can be switched freely.

72W high-power, 33 dual-light headlight beads have faster and more uniform glue baking, no shrinkage and longer service life.

It adopts double-row heat dissipation holes, super heat dissipation, long-lasting standby without getting hot or hurting the machine.

The digital display is clear.

This product is specially designed for nails and can be used in most dry gels, providing excellent drying effect not only for nails but also for toenails.

Can be used to dry mainstream nail polish, nail polish, phototherapy glue, etc.

Suitable for home use and nail salon.
