This nail lamp with memory timer and remember time you setting before.

### Packing list(With box):

- 1.48W lamp
- 2.Mains plug UK/US/EU/AU pin
- 3.Manual

## 1. User manual of Professional UV Curing lamp 48w with 21 pcs Led beads

1. Please plug the power adapter in.
2. The LCD screen displays "000", it means the nail dryer is on the auto sensor state. The lights and the fan will turn on together and the time on the screen will start to rise, when you put your hand/foot into the nail dryer. And they turn off when you take your

hand/foot out. ( The nail dryer will work until 90 seconds, if you keep your hands in it and don't take it out. ) The screen will display "000" again after finishing.

3. The nail dryer will switch from auto sensor mode to 90s Low Heat Mode, if you only press the "ON / OFF" button just one second. At this point, the lights of the nail dryer will turn on and the time on the screen will increase from 0 to 90. The screen will display "000" at last. ( The low heat mode can resolve the pain problems caused by curing gels.)

4. You can select curing time by pressing 30s/60s/90s buttons. The lights and the fan will work together and the time begins to count down.

## **4. Product Details of Professional UV Curing lamp 48w with 21 pcs Led beads**

**COOLING FAN DESIGN** - The most unique selling point of our nail dryer is its internal fan design. It can quickly and effectively discharge the heat generated by the nail lamp, let your nail gel or polish heat more evenly.

**DIGITAL TIME DISPLAY** - The built-in LCD screen displays the curing time clearly, convenient for manicurists and customers. The nail lamp will stop working automatically when the time is over, if you set the time.

**SMART MEMORY FUNCTION** - Our uv led gel nail dryer is featured with a time memory function. You can set in 30, 60 or 90 seconds low heat mode, and adjust the time freely according to your needs, improving efficiency.

**AUTO SENSOR DESIGN** - Equipped with infrared sensor, the lights of our nail fan dryer turn on when you put your hand/foot in and turns off when you take your hand/foot out. No need to manually repress the time setting button.

**ADVANCED CURING TECHNOLOGY** - The gel nail dryer uses 48W UV and LED dual light source lamp beads, and it shortens the curing time by almost 60% compared with a traditional nail dryer, drying your nail gel or polish quickly and efficiently.
