

PP Hollow Sheet Production Machine

China high quality PACKER® PP Hollow Sheet Production Machine in stock is to produce PP corrugated sheet, PP hollow profile sheet, PP fluted board and so on.

Product Introduction

Buy Profile Sheet Machine | PP Sheet Extrusion Line | Corrugated Box Machine Made In

China

"Control the quality by the details, show the power by quality". Our enterprise has strived to establish a remarkably efficient and stable team team and explored an effective excellent control system for Quality Inspection for China Wholesale PP Hollow Sheet Production Machine, All merchandise are manufactured with advanced equipment and strict QC procedures in buy to be certain superior quality. Welcome customers new and aged to get in touch with us for enterprise cooperation.

Quality Inspection for [China Plastic Profile Extrusion Line](#), [Plastic Auxiliary Machine](#), Our technical expertise, customer-friendly service, and specialized goods make us/company name the first choice of customers and vendors. We're looking for your inquiry. Let's set up the cooperation right now!

PP Hollow Sheet | PP Hollow Sheet Production Machine & Introduction

PACKER® PP Hollow Sheet Production Machine is to produce PP corrugated sheet, PP hollow profile sheet, PP fluted board and so on.

PACKER® PP Hollow Sheet Production Machine is widely used as package board, advertisement board, refrigerator board and barrier board.

Corrugated Pipe Machine | PP Hollow Sheet Production Machine | Evol Corrugated Machine & Parameters

PP Hollow Sheet Production Machine	Unit
Single Screw Extruder	one set
Die	one set
Hydraulic Pressure Screen Exchanger	one set
Vaccum Calibrator	one set
First Haul off	one set
Oven	one set
Cooling Device	one set
Second haul off	one set
Cutting device	one set
Electrical Cabinet	one set
Stacker	one set
Feeder	one set

Corrugated Pipe Machine | Corrugated Box Machine & Model

Model	1250	1700	2100	2450
Extruder	SJ110/36	SJ120/36	SJ120/36	SJ130/36
Max.Sheet Width(mm)	1250	1700	2100	2450
Sheet Thickness	2-6,8-12	2-6,8-12	2-6,8-12	2-6,8-12

PP Sheet Extrusion Line & Details

1. Extruder: The special designed screw and the advanced temperature control system ensure the good plasticizing, stable extrusion and high output.

2. Screen changer: PP Hollow Sheet Production Machine is of hydraulic style fast screen changer and ensures the short course of the exchanging filters. Double filters and special leakage-proof structure guarantee its stable performance.

3.Die: Made of super quality alloy and adopted adjustable restrictor bars, provide the even pressure of the plastic flow at the die lips. It ensures even thickness of the board with adjustable lips

4.Vacuum calibrator: The vacuum system and calibrating system including a heat-convection system array interleaved. This kind of design guarantees the high precise degree of the calibration. The vacuum system consists of two independent subsystems, which is equipped with many pieces three point type closed loop vacuum line. Each closed loop is equipped with vacuum regulating system and vacuum display system. This guarantees the good calibration and the smooth surface of the board.

5.Take-off unit: There are two haul-off units. First one consists of multi-rolls and is driven by a strong motor with a speed reducer with a big gear ratio. It has strong take-off strength and performs well at slow speed so that it can draw the board up from the calibrator evenly and synchronally. Second one is put after the infrared stabilizing oven. The slit unit fixed on the take-off unit ensures the smooth cut of the edges.

6.Anneal oven: PP Hollow Sheet Production Machine's advanced huge area conductive heating style can relieve the stress of the products so as to ensure the board is flat.

7.Cutting machine: Setting accurate instant fixing-length cutting and automatic ascend and drop unloading system; the special alloy steel sharp blade ensures a good cut effect.

Company

[RUGAO PACKER MACHINERY CO.,LTD](#) was built in 2015. We are trading company and manufacturer for PP Hollow Sheet Production Machine.Plastic recycling machines, [Mask making machine](#) and so on. We have professional technical team for technical support and service.

Deliver,Shipping And Serving

Delivery: 70-90 days after getting the payment.

Shipping: By sea

Service: 1 year guarantee. After guarantee. We will keep all parts as cost price for our customers.
And service for all life.

Servicing:

1. Professional technical team for offering our customers professional suggestions. To get most reasonable technical for the production line.
2. Sales will follow the order and report to customer the production real situation every one week.

24 hours online-service and help customers to solve problems asap. Offer all necessary documents and manual book to customers for helping to installation PP Hollow Sheet Production Machine. We also offer technical to be at customer factory for installation and testing. Service whole life for our customers.
