

Soundproof Plastic Crusher

Soundproof Plastic Crusher: Aumax Plast AMG-GQ Series soundproof low noise centralized plastic recycling granulator machines are suitable to crushing and granulating plastic wasted materials. Aumax quiet plastic crusher machine equipped with complete soundproof covers to reduce the crushing noise. The granulator recycling machine can crush different hard and soft plastic

wastes from injection molding, blowing molding and extrusion machine.

Soundproof Plastic Crusher

1. Soundproof Plastic Crusher Introduction

Aumax Plast AMG-GQ Series soundproof low noise centralized plastic recycling granulator machines are suitable to crushing and granulating plastic wasted materials. Aumax quiet plastic crusher machine equipped with complete soundproof covers to reduce the crushing noise. The granulator recycling machine can crush different hard and soft plastic wastes from injection molding, blowing molding and extrusion machine.

2. Soundproof Plastic Crusher Parameter (Specifications)

Model		AMG-400GQ	AMG-500GQ	AMG-600GQ	AMG-800GQ
Power	kw	11	15	18.5	30
Rotor Speed	rpm	560	560	560	560
Rotating Blades	V type	6	6	6	6
	F type	12	15	18	24
	C type	24	30	36	48
Fixed Blades	pcs	2	2	4	4
Screen Diameter		Ø10	Ø10	Ø12	Ø12
Chamber Size	mm	270x400	270x500	370x600	370x800
Output	kg/h	300~550	400~600	500~700	600~900
Noise	dB(A)	70~80	70~80	70~80	70~80

Ningbo Aumax Plastic Machinery Co., Ltd

Address: No. 216, Lianhe Rd., Ningbo Economic & Tech Development Zone, Beilun, Ningbo, China

Phone: +86-13819843291

Tel: +86-574-26850648

Fax: +86-574-26855258

E-mail: sales@aumax-plast.com

Motor + Screw Lifter		Included			
Blower Conveying & Cyclone System		Included			
Weight	kg	650	750	1800	1950
Dimensions:					
L	mm	1480	1480	1840	1840
W	mm	1380	1475	1620	1820
H	mm	1680	1680	2050	2050

Please excuse for not note if some specifications of products are changed.

Note:

- 1) V-type rotating blades are standard type for AMG-600GQ/800GQ;
F-type flat rotating blades are standard type for AMG-400GQ and AMG-500GQ;
C-type claw rotating blades is optional to purchase.
- 2) The maximum crushing output depends on the screen diameter, material quality and feeding frequency.
- 3) The screen mesh diameter can be made according to customers' request.
- 4) The running noise depends on varied shredding material.
- 5) The standard power supply is 3Ø 380V 50Hz. Other power supply is available.

3. Soundproof Plastic Crusher Features & Application

- I Soundproof Plastic crusher with soundproof to reduce noise of crushing work.
- I The granulating chamber can be opened by motor screw system completely to change blades and clean granulator machine easily.
- I Soundproof granulator equipped with blower conveyor and cyclone system to transport crushed material.
- I Plastic grinder machine equipped with safety switches and safety door to protect people.
- I Stainless steel feeding mouth ensures material without pollution.
- I Global top brand electric parts and control system ensure machine working stable.
- I Optional dust-separator is available.

Combined **Control Panel**,
easy to operate machine

Global top brand **Electric Components** ensure machine working stable.

High efficiency all copper wire **Motor** ensures machine working powerful and energy-saving.

Double **Fly Wheels** increase rotor running inertia, it makes machine with bigger strength and output capacity.

Optimized **Blades Structure**,
easy to change blades and clean machine.

Adopts **Air Spring Rod** to save manpower for open and

5. Soundproof Plastic Crusher Qualification

Aumax Plast has been focusing on R&D and manufacturing of plastic recycling machine and auxiliary equipment for injection molding machine, blowing molding machine and plastic extrusion line for more than 15years.

We have obtained various domestic and foreign certifications such as ISO9001, ISO14001, CE, etc., which fully demonstrates that our products fully comply with international standards and the quality of products is guaranteed.

6. Delivery, Shipping and Serving

Normally, the delivery time of our plastic machines is 10-20 days after order confirmed and advance payment. Most of our products are packed in plywood cases. For small machines like Vacuum Autoloaders are packed in corrugated case. Usually, we ship large machines by LCL or FCL ocean shipping. Sometimes, customers need machine urgently, we ship machine by air or express.

7. FAQ

1. Q: What is the MOQ?

A: The MOQ is 1 set for all products.

2. Q: Where is the loading port?

A: The nearest port to our factory is port of Ningbo, China, as well as we can send machine to Yiwu, Shanghai, Guangdong or any other cities in China.

3. Q: What are the payment terms?

A: The preferential payment term is T/T, while other payment terms are negotiable.

4. Q: What are your terms of delivery?

A: We accept FOB, CFR, CIF, EXW, and DDU. You can choose the terms which is the most convenient and cost effective to you.

5. Q: How does your factory carry out quality control?

Ningbo Aumax Plastic Machinery Co., Ltd

Address: No. 216, Lianhe Rd., Ningbo Economic & Tech Development Zone, Beilun, Ningbo, China

Phone: +86-13819843291

E-mail: sales@aumax-plast.com

www.aumaxplast.com

A: Powerful R&D teams and professional QC department take care of every detail during design, processing, assembling, testing and packing.

6. Q: Can you supply OEM and customized products?

A: Yes, we can supply OEM / ODM service. Our engineers have rich experience in design and production of plastic auxiliary equipment. We can supply special products according to your ideas and drawings.

7. Q: What about warranty terms?

A: We provide one year warranty for all of our products. During warranty period, if any machine parts damaged due to quality, we will send the new parts by courier immediately by free of charge. Also, we supply 24 hours online service and technical support.
