

Vertical Plastic Hopper Mixer

Vertical Plastic Hopper Mixer: AUMAX AMX Series Full Stainless Steel CE Vertical Blender Plastic Material Granules Mixer Machine Plastic Mixer is used to mix plastic granules and pellets materials, crushed plastic flakes and other plastic materials. This series vertical color mixer machines are large size equipment with large volume, it can mix plastic material in large quantity with

high efficiency and low power consumption.

Vertical Plastic Hopper Mixer

1. Vertical Plastic Hopper Mixer Introduction

AUMAX AMX Series Full Stainless Steel CE Vertical Blender Plastic Material Granules Mixer Machine Plastic Mixer is used to mix plastic granules and pellets materials, crushed plastic flakes and other plastic materials. This series vertical color mixer machines are large size equipment with large volume, it can mix plastic material in large quantity with high efficiency and low power consumption.

2. Vertical Plastic Hopper Mixer Parameter (Specifications)

Model		AMX-500	AMX-600KG	AMX-1000KG	AMX-1500KG	AMX-2000KG	AMX-3000KG	AMX-5000KG
Power	Kw	2.2	2.2	4	5.5	5.5	7.5	11
Capacity	Kg	500	600	1000	1500	2000	3000	5000
Rotor Speed	RPM	420	420	420	390	390	390	390
Weight	Kg	450	550	650	850	950	1200	1800
Dimensions:								
L	mm	1450	1450	1500	1700	1820	2000	2100
W	mm	1250	1250	1400	1800	2050	2300	2300
H	mm	2580	2680	3020	3400	3520	3950	5200

Please excuse for not note if some specifications of products are changed.

Note: The standard power supply is 3Ø 380V 50Hz. Other power supply is available.

3. Vertical Plastic Hopper Mixer Features & Application

- 1) Micro-computer and global top brand electric parts ensure machine works stable.
- 2) Screw type mixing driver can mix material completely and evenly.
- 3) The plastic color mixer can mix virgin material with masterbatches, plastic flakes, granulated pellets, powders, etc.
- 4) Stainless steel mixing body avoid pollution to materials.
- 5) Optional drying function can dry materials completely and evenly when mixing.
- 6) Easy installation, operation, maintenance, low power consumption for energy-saving.
