

### **Ductile Iron Pump Control Valve**

We supply high quality Hispeed® Ductile Iron Pump Control Valve. The HISPEED® Pump Control Valve is designed for installation on the discharge of booster pumps to eliminate pipeline surges caused by the starting and stopping of the pump. The pump starts against a closed valve. When the pump is started, the solenoid control is energized and the valve begins to open slowly, gradually increasing line pressure to full pumping

head. When the pump is signaled to shut-off, the solenoid control is de-energized and the valve begins to close slowly, gradually reducing flow while the pump continues to run. Should a power failure occur, a built-in, lift-type check valve closes the moment flow stops, preventing reverse flow regardless of solenoid or diaphragm assembly position. The HISPEED® Pump Control Valves are designed for installation in the water supply connection to sprinkler, deluge, foam systems, or standpipe fire protection systems. The HISPEED® Pump Control Valve features a flange, easy installation and accessibility. We are expecting to become your long term partner in China.

### **Product Description**

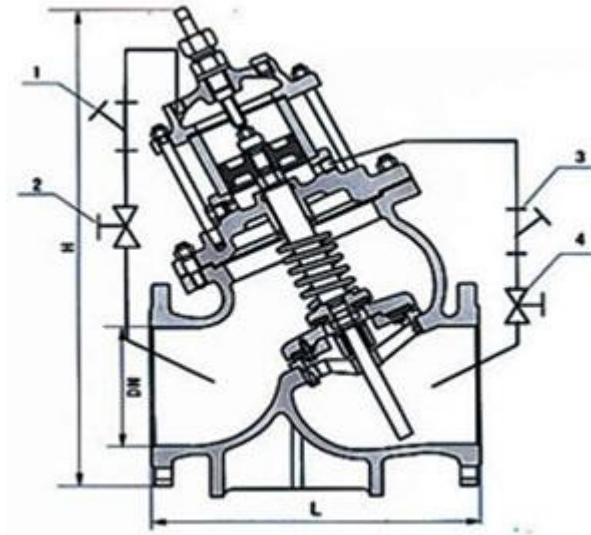

As a professional high quality Hispeed® Ductile Iron Pump Control Valve manufacture, you can rest assured to buy CDuctile Iron Pump Control Valve from our factory and we will offer you the best after-sale service and timely delivery.

The HISPEED® Pump Control Valve is designed for installation on the discharge of booster pumps to eliminate pipeline surges caused by the starting and stopping of the pump. The pump starts against a closed valve. When the pump is started, the solenoid control is energized and the valve begins to open slowly, gradually increasing line pressure to full pumping head. When the pump is signaled to shut-off, the solenoid control is de-energized and the valve begins to close slowly, gradually reducing flow while the pump continues to run. Should a power failure occur, a built-in, lift-type check valve closes the moment flow stops, preventing reverse flow regardless of solenoid or diaphragm assembly position. Our company has been focusing on brand strategy. Customers' satisfaction is our best advertising. We also supply OEM service for Europe style for China Multi-Functional Water Pump Control Valve (GAJD745X), "Making the Merchandise of Significant Quality" could be the eternal goal of our firm. We make unrelenting endeavours to know the aim of "We Will Always Keep in Pace using the Time". Europe style for China Water Pump Control Valve, Water Control Valve, With the principle of win-win, we hope to help you make more profits in the market. An opportunity is not to be caught, but to be created. Any trading companies or distributors from any countries are

welcomed.

The HISPEED® Pump Control Valves are designed for installation in the water supply connection to sprinkler, deluge, foam systems, or standpipe fire protection systems. ### Product Feature And Application

Reasonable design, stable performance, long service life

Easy to replacement and available on-line maintenance

The needle valve can adjust the opening and closing speed of the main valve

Flanged and Drilling Complies with ANSI B16.1 Class125 / EN 1092-2 PN16 / Groove dimensions comply with AWWA C606

300psi/PN16

Fusion Bonded Epoxy Coated Interior and Exterior to AWWA C550 Standard

### Product Details

Part	Material
Body/Bonnet	Ductile IronEN GJS-500-7
Cover	Ductile IronEN GJS-500-7
Stem	AISI 304
Diaphragm	Nylon+EPDM
Support Ring	Ductile IronEN GJS-500-7
Obturator	Ductile IronEN GJS-500-7
Spring	AISI 304
O ring	NBR
Seat	AISI 304
V-Port	AISI 304
Nut	AISI 304
Seal Rings	NBR/EPDM

### Deliver,Shipping And Serving

Ship from Qingdao or another Seaports

### FAQ

	Q	A
1	How many days you need to install the equipment?	Unwanted.
2	How many staff abroad you sent to install the equipment?	Unwanted.
3	Can I transfer the money to you then you pay to other supplier?	YES.
