

## Egg Washing Machines

We supply Egg Washing Machines. The HISPEED® Egg Washing Machines, including egg loading unit, candler, sanitizer sprayer, washing, drying, manual collection table and optional egg printer with capacity of 5000 eggs/hour, are made of strong stainless steel for great durability and hygiene. The sanitizer sprayer sprays sanitizer or detergent (customer provides) onto eggs automatically for food security purpose. The eggs are cleaned by brushes with warm water (customer provides water heater). Water on eggs will be swept off by the drying brushes, and meanwhile the eggs themselves are dried by the drying fan system, the drying rate can reach up to 95% which depends on the environment humidity. The HISPEED® product covers a whole range of machines for the egg processing industry, such as, egg grading, egg washing, egg printing, egg detecting and egg processing etc. Our passionate and friendly experts in egg processing field and a network of agents and dealers throughout the world will ensure your investment on egg processing equipment is reliable. We are expecting to become your long term partner in China.
