

Automatic softening tester

JHD50 Automatic softening tester can provide users with accurate, stable and reliable test results, and also bring users an efficient and convenient test experience. Standard cups and measurement methods ensure the comparability of results.

1. Automatic softening tester Introduction

Innovation:

- 1: High-definition video visual sample changes;
- 2: Test two samples at a time;
- 3: Low temperature and gas protection functions can be customized;
- 4: Comply with national standards and international general standards.

2. Automatic softening tester Parameter

Model	JHD50
Temperature range	Room temperature to 350°C
Temperature resolution	0.1°C
Detection method	Manual detection
Heating rate	0.1-20 °C / Min
Accuracy	± 0.2 °C (<250°C) ± 0.5 °C (> 250°C)
User Management	15
Display method	5.6 inch + 4.3 inch color display
Processing capacity	2 per batch
Experimental program	100 set
Data interface	USB RS232 network port
Comply with GLP specification	YES
Power supply	220 V 50Hz 120W
Standards compliant	Meet ASTM (D3204, D3461, D3104, D3954, D6090), DIN (51801, 51920), GB / T (2294-2019, 3498/8728-1988, 8728-1988) ISO (2176-1972, 4625-2) and "Pharmacopoeia" and other standards
Data storage	-
User Management	-
Compliant with 21CFR Part 11, audit trail, electronic signature	NO
Printing method	Serial printing
Export in multiple file formats	PDF & Excel

3. Automatic softening tester Feature And Application

- 1: HD video visual sample changes;
- 2: Fully automatic one-button automatic measurement;
- 3: Test two samples at a time;
- 4: Can print data directly through the printer;

5. Compliance with 21CFR Part 11, audit trail, Pharmacopoeia 2020 and electronic signature;
6: in line with national standards and international standards.

4. Fields of use Automatic softening tester

Automatic droplet point and softening point tester plays an important role in chemical industry and medical research. It is a necessary instrument for droplet point and softening point of asphalt, asphalt, polymers, resins, paste, wax and more materials.

5. Products detail

Automatic softening tester perfectly combine high-precision temperature control technology and high-definition video camera technology, not only to provide users with accurate, stable and reliable test results, but also to bring users efficient and convenient test experience. High-definition video can easily and clearly see the whole process of sample state change, and automatically detect real-time graph display, which is convenient for users to accurately measure the sample drop point/softening point. The standard fat cup and measurement method can ensure the accuracy of the results.

6. Product Qualification

Jiahang Automatic softening tester has obtained CE certification, TART certification, ISO quality management system certification, more than 10 software copyrights and multiple patents to ensure that each instrument has stable performance and excellent quality.

7. Deliver,Shipping And Serving

We have a top R&D team returned from Europe and America, cooperate with our superb manufacturing team, professional sales team and dedicated service team, working together to provide customers with high-tech, high-quality products and efficient, convenient, Comprehensive pre-sales and after-sales professional services.

8. FAQ

How many years have your company made Automatic softening tester ?

22 years of scientific instrument manufacturer, laboratory solution provider!

Which certificate do you have for your products?

Jiahang has obtained CE certification, TART certification, ISO quality management system certification, more than 10 software copyrights and multiple patents to ensure that each instrument has stable performance and excellent quality.

Will you will attend the fair to show your products?

Yes, Every year we will participate in some internationally renowned exhibitions to launch our new products, such as Arablab, PICCTON, Analytica Russia, Lab Africa, Analytica Germany, Analytica Latin America and so on,we are looking forward to your visit.

How about your company's R&D strength

Possess strong R&D technical capabilities (a R&D team of more than 20 people, with an average degree of doctorate degree, graduated from well-known universities at home and abroad, with an average work experience of 8 years), able to deal with and solve product-related technical problems

If OEM is acceptable?

Provide OEM customization service, product built-in software has autonomy, can customize development settings

Are you a trading company or a manufacturer?

100% manufacturer, no middlemen and distributors make the price difference, the price of the source factory is very advantageous; Jiahang is headquartered in Shanghai, China, has 15 service outlets and 2 production plants in China, and has sales in more than 10 countries overseas proxy.

How about your delivery time?

"Generally, it will take 7 to 15 working days after receiving your advance payment. Depend on the quantity."

Which payment can be acceptable ?

We could accept the payment by L/C, TF, Paypal , Western Union,etc.

Service

We could provide Online instruction ; Real-time support by video-ca or voice-chat.

Any customer who cooperates for the first time promises to provide a production cost price trial opportunity to solve your worries about product quality problems.

Provide official product quality assurance documents that comply with legal benefits to escort you with worry-free after-sales service.
