

Intelligent digital display constant temperature water bath

Intelligent digital display constant temperature water bath are widely used in petroleum. Chemical industry, electronic instrument, physics, chemistry, biological engineering, medicine and health, life science, light industry food Product and physical property testing and chemical analysis and other research departments, colleges and universities, enterprise quality inspection and production departments, to provide users with a cold and hot control when working, The field source with uniform and constant temperature can be used for constant temperature experiments or tests on experimental samples or products produced. It can also be used as a heat source or cold source for direct heating or refrigeration and auxiliary heating or refrigeration.

1. Intelligent digital display constant temperature water bath Introduction

The transparent bath constant temperature water bath provides convenience for those applications that need to observe the sample during the constant temperature process.

- 1: Using advanced fuzzy PID temperature control technology, it can accurately and quickly achieve the constant temperature effect.
- 2: Multiple protection design: over current protection, high and low temperature protection, low liquid level sound and light alarm, can cut off the power in time to prevent dry burning, and ensure the safety of the instrument and laboratory;
- 3: With program temperature control function, meet the requirements of special experiments.
- 5: Imported silent water pump provides powerful circulating power.

2. Intelligent digital display constant temperature water bath Parameter

Technical Parameters	JH-200T
Display resolution (°C)	0.1 and 0.01 optional
Working temperature range (°C)	Room temperature -98
Stability (°C)	±0.05
Maximum pump flow (L/min)	12
Bath volume (L)	20
Data interface	RS232/RS485 optional

Opening size/depth (mm)	320*300/160
-------------------------	-------------

3. Product Feature And Application

- 1: Adopt advanced fuzzy PID temperature control technology, can accurately and quickly achieve the effect of constant temperature;
- 2: Multiple protection design: overcurrent protection, high and low temperature protection, low liquid level acousto-optic alarm, can be cut off in time to prevent dry burning, ensure the instrument, experiment Room security;
- 3: With program temperature control function, to meet the special experimental requirements;
- 4: TFT color screen display;
- 5: Compressor refrigeration, using international environmental protection refrigerant R134A;
- 6: Imported quiet water pump, providing strong circulating power;
- 7: 316 Stainless steel sink, with high strength anti-corrosion, anti-rust ability

4. Fields of use Product

Intelligent digital display constant temperature water bath is widely used in drying, concentration, distillation, impregnated chemical reagents, impregnated drugs and biological agents, can also be used for water bath constant temperature heating and other temperature tests, is biology, genetics, virus, aquatic products, environmental protection, medicine, health, biochemical laboratory, analysis room education and scientific research necessary tools.

5. Product Qualification

Jiahang Product has obtained CE certification, TART certification, ISO quality management system certification, more than 10 software copyrights and multiple patents to ensure that each instrument has stable performance and excellent quality.

6. Deliver,Shipping And Serving

We have a top R&D team returned from Europe and America, cooperate with our superb manufacturing team, professional sales team and dedicated service team, working together to provide customers with high-tech, high-quality products and efficient, convenient, Comprehensive pre-sales and after-sales professional services.

7. FAQ

How many years have your company made Intelligent digital display constant temperature water bath ?

22 years of scientific instrument manufacturer, laboratory solution provider!

Which certificate do you have for your products?

Jiahang has obtained CE certification, TART certification, ISO quality management system certification, more than 10 software copyrights and multiple patents to ensure that each instrument has stable performance and excellent quality.

Will you will attend the fair to show your products?

Yes, Every year we will participate in some internationally renowned exhibitions to launch our new products, such as Arablab, PICCTON, Analytica Russia, Lab Africa, Analytica Germany, Analytica Latin America and so on,we are looking forward to your visit.

How about your company's R&D strength

Possess strong R&D technical capabilities (a R&D team of more than 20 people, with an average degree of doctorate degree, graduated from well-known universities at home and abroad, with an average work experience of 8 years), able to deal with and solve product-related technical problems

If OEM is acceptable?

Provide OEM customization service, product built-in software has autonomy, can customize development settings

Are you a trading company or a manufacturer?

100% manufacturer, no middlemen and distributors make the price difference, the price of the source factory is very advantageous; Jiahang is headquartered in Shanghai, China, has 15 service outlets and 2 production plants in China, and has sales in more than 10 countries overseas proxy.

How about your delivery time?

"Generally, it will take 7 to 15 working days after receiving your advance payment. Depend on the quantity."

Which payment can be acceptable ?

We could accept the payment by L/C, TF, Paypal , Western Union,etc.

Service

We could provide Online instruction ; Real-time support by video-ca or voice-chat.

Any customer who cooperates for the first time promises to provide a production cost price trial opportunity to solve your worries about product quality problems.

Provide official product quality assurance documents that comply with legal benefits to escort you with worry-free after-sales service.
