

Inch Slotted Head Shoulder Screw

Inch Slotted Head Shoulder Screws are primarily used for small part connections, but can also be used as aligned linear slides in punch and die mechanisms or plastic injection mold sets. We specialize in precision fasteners, our products are not only reasonably priced, but also quality guaranteed. Looking forward to being your long-term partner in China.

1.Product Introduction

Each Inch Slotted Head Shoulder Screws are manufactured in a single operation and we start with precision ground RoSH compliant raw materials that are fully traceable. Inch Slotted Head Shoulder Screws are mostly used for the connection of small parts.

2.Product Parameter

Product Name	Inch Slotted Head Shoulder Screw
Material	Brass, Alloy, Stainless Steel etc.
Surface Treatment	Knurled, Plating etc.
Package	Plastic bag and carton
Used	Building industry machinery etc.

3.Product features and applications

Inch Slotted Head Shoulder Screws have a slot in the head of the fastener and are driven by a common flat head screwdriver. Shoulder screws are manufactured in different head styles. Sometimes this style is for functional purposes, sometimes for decorative purposes. Inch Slotted Head Shoulder Screws are commonly found in existing products and applications that require very little torque.

4.Product Details

Below is the detailed picture introduction of our product Slotted Head Shoulder Screw.

5.Product Size Chart

The following is the detailed size and material drawing of our product. You can customize it according to your needs. We produce high-quality products according to industry standards. If you have any questions, please feel free to contact us and look forward to cooperating with you.
