

SMD Solder Nut

Prior to the automated reflow soldering process, SMD Solder Nuts were mounted on PC boards in the same manner and simultaneously as other surface mount components. Our company also produces other precision fasteners of different types and materials in China. First of all, our price is excellent, and secondly, the quality is guaranteed.

1.Product Introduction

These great SMD Solder Nuts will make your mechanical PCB mounting problems disappear, they are super easy to operate. SMD Solder Nuts are very strong and save you the hex nuts or brackets.

2.Product Parameter

Product Name	SMD Solder Nut
Material	Alloy, Stainless steel etc.
Surface Treatment	Sn
Package	Plastic bag and carton
Used	Connect the PCB

3.Product features and applications

The SMD Solder Nuts just become another board assembly, alleviating concerns about possible damage to the PC board due to incorrect secondary mounting practices. SMD Solder Nuts allow for faster assembly, less scrap, less handling, and less risk of board damage.

4.Product Details

Below is the detailed picture introduction of our product SMD Solder Nut.

The images shown are representative of the product. In addition, we also have products of various sizes and materials for you to choose from.

5. About our company

SMD Solder Nuts are one of our products, We also have a wide variety of products and different materials for you to choose from. We have a deep focus on the quality, delivery and operational performance of all the products we deliver. We specialize in the production of precision fasteners, and We are committed to providing impeccable quality products at relatively lower prices than our peers to meet the needs of different customers. Looking forward to becoming your long-term partner in China.
