

Steel Insert Nut

Steel Insert Nuts, also known as threaded bushings, are fastener elements that are inserted into objects to add threaded holes. We are a company specializing in the production of precision fasteners in China, our products can guarantee the quality and the price is competitive.

1.Product Introduction

Steel Insert Nuts are fastener elements used to repair spalled threaded holes, provide durable threaded holes in soft materials, place threads in materials that are too thin to accept. Steel Insert Nuts have high precision threads compatible with appropriate screws, easy installation, no peeling when rotated, greatly improving efficiency.

2.Product Parameter in China, our products can guarantee the quality and the price is competitive.

Product Name	Steel Insert Nut
Material	Alloy, Stainless steel etc.
Surface Treatment	Knurled, Plating etc.
Package	Plastic bag and carton
Used	Building industry machinery etc.

3.Product features and applications

Steel Insert Nuts are made of very strong material with high hardness, durability and will not deform under extrusion. The flush design allows the insert to be installed below the surface. Steel Insert Nuts are very easy to install with just a screwdriver or optional drive tool and can be applied to a

wide variety of mechanical parts.

4.Product Details

Below is the detailed picture introduction of our product Steel Insert Nut.

The images shown are representative of the product. In addition, we also have products of various sizes and materials for you to choose from.

5.About our company

Steel Insert Nuts are one of our products, We also have a wide variety of products and different materials for you to choose from. We have a deep focus on the quality, delivery and operational performance of all the products we deliver. We specialize in the production of precision fasteners, and We are committed to providing impeccable quality products at relatively lower prices than our peers to meet the needs of different customers. Look forward to working with you.
