Product Introduction

Aluminium Anchoring Tension Clamps for all dielectric self-supporting cable (ADSS) are developed as a solution for aerial round fiber optic cables of different diameters. They are used for tight the main or branch LV ABC cable to line pole, line tower or wall on corner runs or down lead. These insulating dead end clamps are suitable for very heavy pollution environments and are manufactured from High strength aluminium alloy body and weather proofed and UV resistant Nylon plugs fiber glass wedge, High tension strength hot dip galvanized steel.

Aluminium Anchoring Tension Clamp is enough to keep the aerial bundled cables in tight strength position, and appropriate mechanical resistance archived by conical body and wedges, which does not allow the cable to slip from the ADSS cable accessory The ADSS cable route may be dead-end, double dead-ending or double anchoring. Cogged inside canals confirm the excellent mechanical contact, Cable's insulation thus disabling slippage and the effect of most reliable tightening is achieved, It is tested and certified so that it complies with all standards for cable accessories. Stainless steel tails is available up to customer's request

TECHNICAL DATA:

Type	PAL1500
Material – Body	High strength Aluminium Alloy
Material – Wedge	Weather proofed and UV resistant Nylon plugs fiber glass
Material – Bail	Stainless steel 201/304 or Iron
Breaking Load	15KN
Standard	NFC 33-042; EN 50-483

ABOUT US

ZHEJIANG SENTUO ELECTRIC CO.,LTD

is the professional manufacturer of high quality low voltage ABC accessories, was founded in 2008. Our main products include Insulation piercing connectors, anchoring clamps, suspension clamps, Strain clamps, Insulated joints and lugs, resin-filled waterproof junction box, street light junction box and heavy duty connectors.

FAQ:

Q1: Are you a trading company or factory?

A2: We are the factory, and we are the supplier of 35% company in this field

Q2: Are you able to customize the product for me?

A2: Yes, we owns the professional R&D team and complete Injection molding machine.

Q3: What is the acceptable payment term?

A3: Credit Card, West Union, Paypal or T/T.

Q4: What is the package could be?

A4: We can make special design as your requirement.

Q5: What is your day capacity?

A5: 10000-20000pcs
