### Product Introduction

#### Heavy Duty Electrical Connectors 32Pin

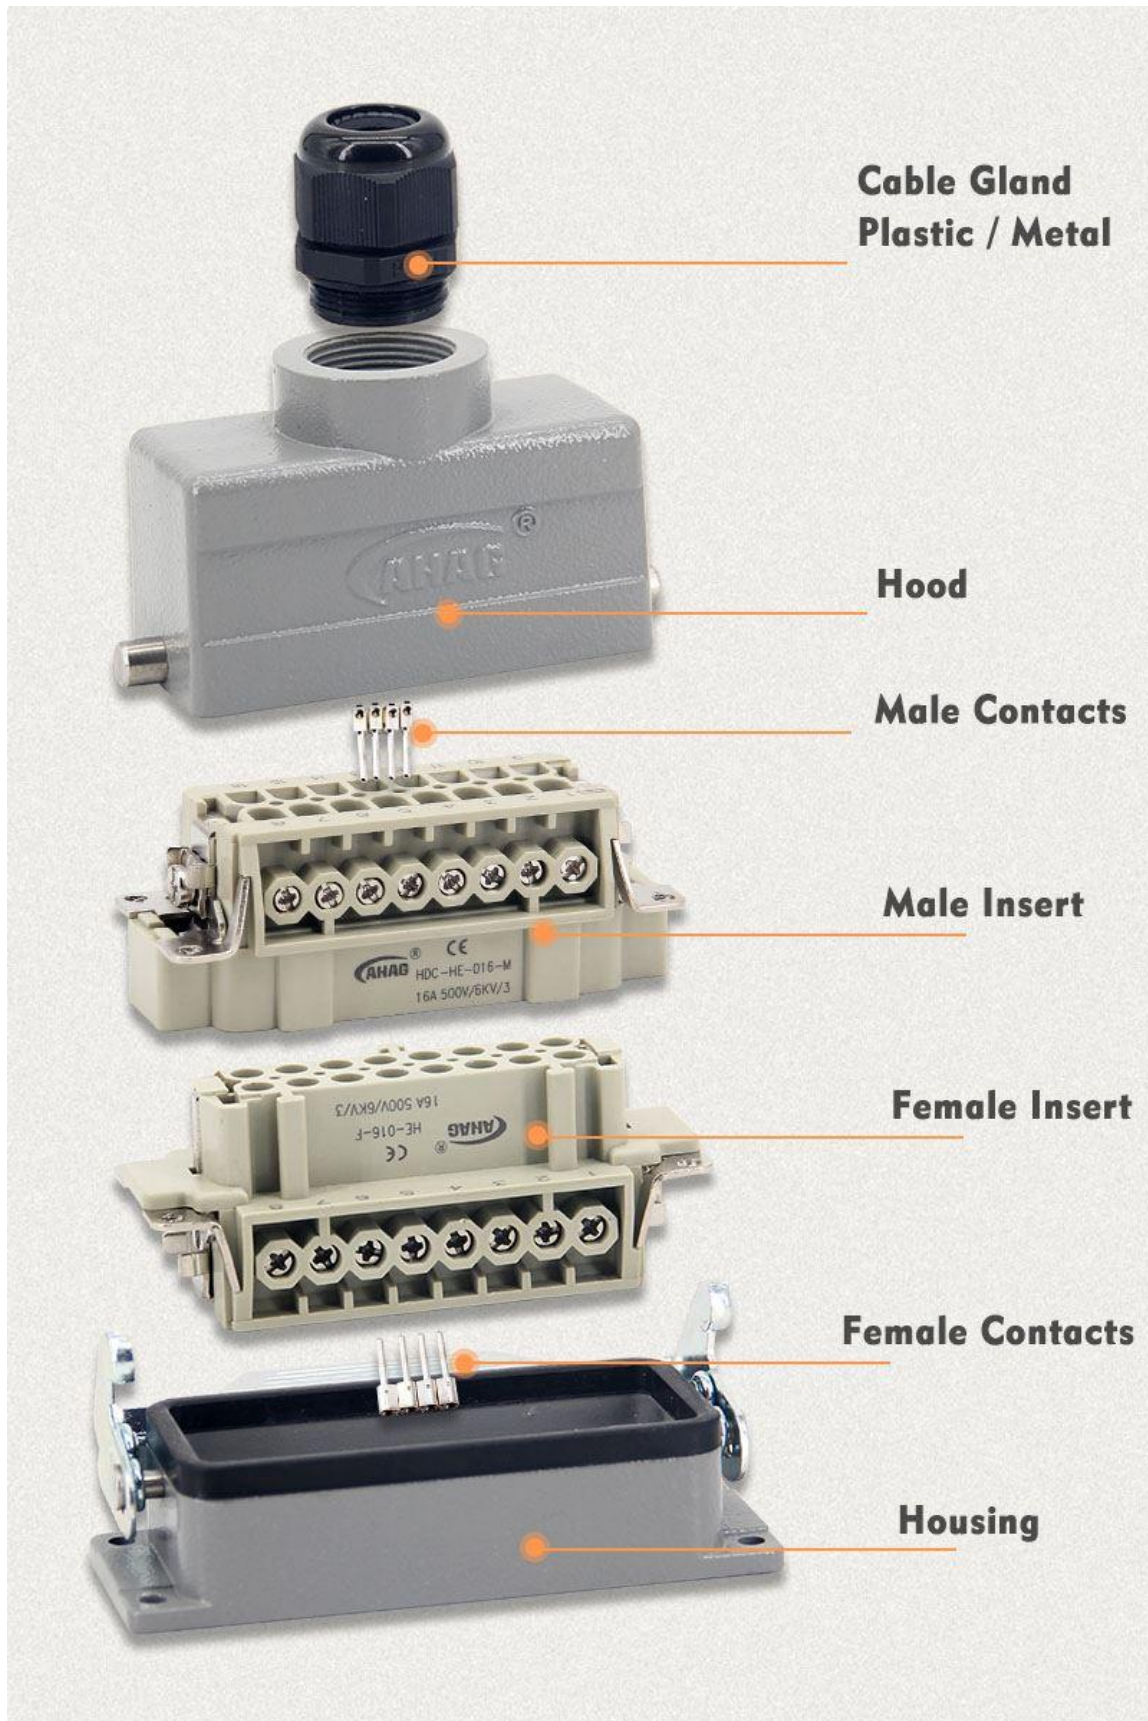

Heavy duty connectors are mainly used in the following devices of the automobile assembly lines: automobile body forming systems, welding robots, control cabinets, intelligent control systems, assembly line conveying systems, hoists, I-beam blank workshops, transmission beam adjustment systems, metal beams Combination system, etc.

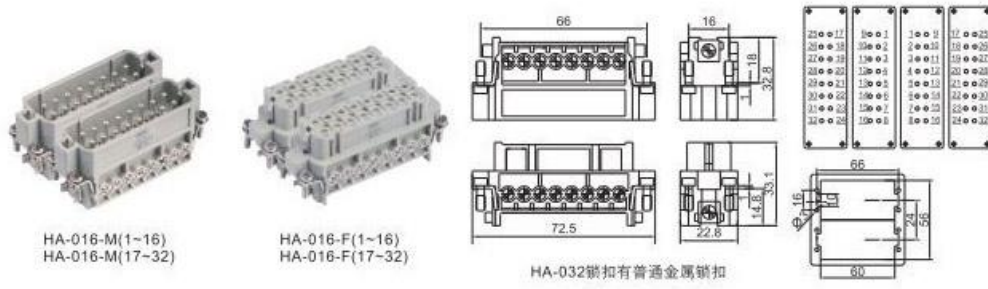

The hoods and housings for the HA series are available in metal or thermoplastic and are offered in a wide range of options. The connector housings are made of die cast aluminium and offer excellent protection against dirt, moisture and mechanical stress. The HA series of connector inserts are part of a space saving compact heavy duty connector family. The HA series is similar to the Han A series from Harting Electric® and the A series offered by other companies. Crimp contacts in highest contact density, special tools necessary, vibration proof, gas-tight termination, suitable for termination with crimping machines. Screw termination is no special tools necessary
