Product Introduction

PAL2000 Insulation ABC Cable Tension Clamp is used to fix the end of inside line, also suitable for insulated low-voltage ABC cable. These anchor clamps are made of one opened conical aluminium alloy reinforced body, a pair of plastic wedges and a flexible bail. They are used to anchor and tighten LV-ABC lines with insulated neutral messenger. Those clamps are easy to install without tools and suitable for various climatic conditions. Self-adjusting wedges, which provide the tool free installation and it can hold ADSS cable without jacket damaging

Insulation ABC Cable Tension Clamps are suitable for very heavy pollution environments and are manufactured from High strength aluminium alloy body and weather proofed and UV resistant Nylon plugs fiber glass wedge, High tension strength hot dip galvanized steel. The stainless steel bail allows installations of the anchoring clamp on a wall or pole assembled with various anchor brackets or hooks. It is tested and certified so that it complies with all standards for cable accessories. Stainless steel tails is available up to customer's request.

TECHNICAL DATA:

Type	PAL2000
Material – Body	High strength Aluminium Alloy
Material – Wedge	Weather proofed and UV resistant Nylon plugs fiber glass
Material – Bail	Stainless steel 201/304 or Iron
Breaking Load	20KN
Standard	NFC 33-042; EN 50-483
