

Self-Locking Stainless Steel Cable Ties

Self-locking type stainless steel cable ties are designed to secure cables, hoses, poles, pipes and more in harsh environmental conditions. They have a self locking ball bearing mechanism for quick installation with either a tensioning tool or by hand. The following is an introduction to Self-Locking Stainless Steel Cable Ties, I hope to help you better understand it. Welcome new and old customers to continue to cooperate with us to create a better future together!

Product Introduction

Self-Locking Stainless Steel Cable Ties

Self-locking type stainless steel cable ties are designed to secure cables, hoses, poles, pipes and more in harsh environmental conditions. They have a self locking ball bearing mechanism for quick installation with either a tensioning tool or by hand.

Our stainless steel roller ball cable ties are available in 304 (A2) grade and 316 (A4, Marine & Food) grade. 316 Grade stainless steel cable ties are also available with a black or red polyester coating (Polyester coated body with uncoated head). Polyester coating provides added edge protection & prevents corrosion between dissimilar metals.

High carbon stainless steel cable ties can be used in applications of extreme high temperature. These ties have excellent resistance to weathering and ageing and offer 100% UV resistance. Ideal for use in harsh and demanding environments or where the application requires reliability, high strength and fire resistance.

Available in 10mm & 12.7mm & 16mm & 19mm width with a single ball head or a double ball head for extra strength and stability. The ball bearing locking mechanism locks into place securely and quickly providing easy installation either by hand or tensioning tool.

FEATURES:

- Flame Retardant, Extreme Weather Conditions, Rust and Corrosion Resistant. Can be used in Extremely Low and High Temperatures (-112°F to 1000°F).
- Self-Locking with Smooth, Rounded Edges for a Safe Use.
- No Tools Required.
- For the Toughest Applications: Automotive, Industrial, Home Repairs, Pipes, Indoors, Outdoor.
