注：线夹的本身和楔子为可锻铸铁，热镀锌。闭口销为不锈钢铸件，其余为热镀锌钢制件。

JXL Series Clamp (wedge Type)

Application

The wedge connector is applicable for overhead line, connect solid and stranded aluminum, aluminum alloy and stranded aluminum composite aerial bundled conductors. Equipped with insulating cover

Application of wire clamp

Choosing the wedge clamps according to the model and section size of the main conductor and tap conductor.

Application of wire clamp

Figure 1: Wedge clamps cases are divided into four types, choose the installation tool follow the clamps case size. Choose the small installation tool for No.1 and No.2 case clamps, big size installation tool for No.3 and No.4 case clamps.

Figure 2: The installation tool is easy to operate, reliable and in good use.

JXL Insulation Cover (wedge Type)

Structure feature

Non-magnetic material, no power loss
Elastic clamping by the wedge, continuous and reliable
Suitable for various wires, strong applicability
