

700W Camping Electronics Portable Power Stations

Qijun Technology is a professional Camping Electronics Portable Power Stations manufacturer and supplier in China. We have been specialized in portable power bank for many years. Our 700W Camping Electronics Portable Power Stations have a good price advantage and cover most of the European and American markets. We look forward to becoming your long-term partner in China.

Product Description

This 700W Camping Electronics Portable Power Stations is the latest invention of high-quality CE,FCC,Rohs,PSE,UN38.3,MSDS and comes with a 1-year warranty. The 700W Camping Electronics Portable Power Station is made of 72pcs 18650 Li-ion batteries + PCBA+ABS , which has been designed to meet most demanding outdoors travelling and camping requirements, being easy to install and using.

Product Parameter (Specification) of 700W Camping Electronics Portable Power Stations

MODEL	Product Specifications	
QJT700	Input	Adapter: DC19V/5A Solar Panel Charging: 100W-120W,18-30V
	USB Output	3xUSB: 5V/3.1A 1xUSB QC3.0: 5~12V/2.25A Type-c 1 PD60W Type-c 2 PD27W
	DC Output	2x5.5*2.1mm DC 12V/10A Max
	Capacity	18000mAh 6S12P
	AC Output	700W (Peak: 1100W)
	Bulb Type	1W LED Long bright, SOS, burst flash
	Power Indicator	LCD Display
	Operation temperature	-10°C-40°C
	Lifecycle	>500 times
	Dimensions(L*W*H)	284*202*218MM
	Weight	7KG

Product Feature And Application

QiJun 700W Camping Electronics Portable Power Stations was born from the idea of getting out and staying outside. We provide power for every experience of the outdoors. Whether you are camping, tailgating at the game, backpacking, rafting the Colorado River, climbing Mount Everest, or just hanging out in the backyard-QiJun powers you.

Product Details

700W Camping Electronics Portable Power Station is a rechargeable battery-powered generator. Equipped with AC outlet, DC carport and USB charging ports, they can keep all your gear charged, from smartphones, laptops, to CPAP and appliances, like mini coolers, electric grill and coffee maker, etc.

1.BMS

Our Battery Management System is built to govern the products' safety structure. With multiple solutions for over current protection, short current protection, over-discharge protection, overcharge protection, over voltage protection, and thermal protection.

2.Safety

This system will monitor each individual cell and battery pack health, which shields the battery safety level and the system, improving the battery life. It is even aligned with the highest battery industrial standard - matching quality with all the electric cars.
