

Battery Camping Solar Power Station

QiJun Technology is a professional Battery Camping Solar Power Station manufacturer and supplier in China. We have been specialized in portable power bank for many years. Our products have a good price advantage and cover most of the European and American markets. We look forward to becoming your long-term partner in China.

Product Description

This Battery Camping Solar Power Station is the latest invention of high-quality CE,FCC,Rohs,PSE,UN38.3,MSDS and comes with a 1-year warranty. The portable power station 100W is made of 21pcs18650 Li-ion batteries + PCBA+ABS , which has been designed to meet most demanding outdoors travelling and camping requirements, being easy to install and using.

Product Parameter (Specification) of Battery Camping Solar Power Station

MODEL	Product Specifications	
QJT103	Input	Adapter: DC15V/2A Solar Panel Charging:35-40W,18-22V
	USB Output	2 X USB 5V/2.1A Max 1 X TYPE-C 5-9V/2A Qualcomm Quick Charge3.0 ,PD2.0 1 x USB 5-9V/2A Qualcomm Quick Charge3.0
	DC Output	2 x 5.5 x 2.1mm 9-12.5V/10A(15A Max)
	Capacity	42000mAh(3S7P 3.7V)
	AC Output	100W (Peak: 150W)
	Bulb Type	3W Ultra bright LED light With SOS/ Blink mode
	Power Indicator	Led Display
	Operation temperature	-10℃-40℃
	Lifecycle	>500 times
	Dimensions(L*W*H)	215*77.5*210MM
	Weight	1.7KG

Product Feature And Application

QiJun Battery Camping Solar Power Station was born from the idea of getting out and

staying outside. We provide power for every experience of the outdoors. Whether you are camping, tailgating at the game, backpacking, rafting the Colorado River, climbing Mount Everest, or just hanging out in the backyard- QiJun powers you.

Product Details

Battery Camping Solar Power Station is a rechargeable battery-powered generator. Equipped with AC outlet, DC carport and USB charging ports, they can keep all your gear charged, from smartphones, laptops, to CPAP and appliances, like mini coolers, electric grill and coffee maker, etc.

1.BMS

Our Battery Management System is built to govern the products' safety structure. With multiple solutions for over current protection, short current protection, over-discharge protection, overcharge protection, over voltage protection, and thermal protection.

2.Safety

This system will monitor each individual cell and battery pack health, which shields the battery safety level and the system, improving the battery life. It is even aligned with the highest battery industrial standard - matching quality with all the electric cars.
