

Panels 300W Foldable Folding Solar Panel Portable

We'll outline some of the best panels 300w foldable folding solar panel portable available today, particularly for use with portable solar generators for outdoor activities or emergency power. QiJun is a professional manufacturer and supplier of panels 300w foldable folding solar panel portable Intenergy Portable and Foldable Monocrystalline panels solar energy in China. We have been specialized in this area for many years , let us help you pick the right solar panel system for your home.

Product Description

This panels 300w foldable folding solar panel portable and foldable solar panel with Adjustable kickstand and storage bag . The panels 300w foldable folding solar panel portable is made of monocrystalline , are made up of dozens of individual cells called photovoltaic cells (or PV cells or solar cells), being easy to install and using, keeping your electronics charged simple.

Product Parameter (Specification) of panels 300w foldable folding solar panel portable

MODEL	Product Specifications	
QJSFZD-300B	Peak power Pmax:	300Wp
	Working voltage Vmp:	18V
	Working current Imp:	16.67A
	Open circuit voltage Voc:	21.6V
	Short circuit current Isc:	18.33A
	Cell:	Monocrystalline 156
	Output connector::	PV1-F1*4mm2 Cable&MC4
	Operation temperature	-10°C-40°C
	Folding size::	674*403*55mm
	Expanded size:	700*445*65mm
	NetWeight	8.4kg

Product Feature And Application

High Efficiency panels 300w foldable folding solar panel portable, whether you are camping, tailgating at the game, backpacking, rafting the Colorado River, climbing Mount Everest, or just hanging out in the backyard-QiJun powers you. Solar power system installations result in a clean, renewable energy source that requires minimal maintenance with savings that could pay back the initial investment in just a few years!

Product Details

At its most basic, a solar panel is simply a device that absorbs the rays of the sun and turns that energy into usable electricity. Most residential and panels 300w foldable folding solar panel portable work using photovoltaic solar cells made of silicon that send that energy through an MPPT charge controller to be stored in lithium-ion batteries or lead-acid batteries.

The Best Solar Panels for Portable Solar Generators

Monocrystalline panels 300w foldable folding solar panel portable tend to be sleek and are the most efficient solar panels, but they are also the most expensive.
